

SAVE YOUR SIGHT

EYESIGHT—The most valuable of all the senses—is the most neglected and the least understood. Many suffer from illis, which, upon examination, can be traced directly to defective eyesight.

THE removal of the cause will often restore the delicate and run-down sufferer to robust health. When glasses are properly prescribed, they restore the vision to normal and eliminate all eye strain.

GOVERNOR RIGGS TALKS OF MINES

Goes to Washington to Try to Secure Aid for Service to Hyder.

Governor Riggs of Alaska is, according to a Seattle paper, going East to try to induce the American Government to aid an American line of steamships to Hyder. At present there is launching between that town and Ketchikan. The Alaska governor is quoted as giving the opinion that the quartz district just beyond the head of Portland Canal is believed by Northern mining men to be the richest silver proposition ever discovered in the North and some insist that it will hold several new world's records. The Alaska territorial government, co-operating with the forestry service and the Alaska road commission, will have opened a highway up Salmon Creek across American territory and to the border of British Columbia by summer. Over this route the silver ore will be brought, in all probability, to Hyder for transshipment to outside smelters. The forestry service, if necessary will build a dock at the new town of Hyder and as there is no possibility of reaching the new quartz country without going through Hyder, it is expected traffic will flow over the Hyder dock.

What is irksome to Governor Riggs is the fact that American steamship lines do not touch at Hyder, while the Grand Trunk vessels do drop in there at regular intervals. The Alaska executive is eager to provide for regular calls by steamers that start from and arrive back at Seattle.

The Hyder question will be one of the matters taken up by Governor Riggs while on the outside. This will open up the whole question of control of Alaska steamship routes and encouragement of service, which is expected to figure on his trip.

LOCAL MEMBER REVIEWS BUSINESS AND INDUSTRIAL SITUATION IN PROVINCE

(Continued from Page One.)

ever realized could be possible. The timber resources of Northern British Columbia are far more valuable than many people in the North have hitherto understood, and are bound to contribute largely to the general prosperity of Northern British Columbia.

In respect of agriculture, the agricultural lands of Northern British Columbia, for mixed farming and dairying purposes, cannot be surpassed, and the development already begun will continue upon an increasing scale.

Beyond Question.

In respect of the fishing industry, Prince Rupert is, of course, the metropolis; so that with fishing, mining, lumbering and agriculture, Northern British Columbia is bound to rapidly expand. Its wealth and resources are beyond question. It is only a question of how rapidly development will take place.

For the year 1920, with the large influx of people which is certain to come, provision must be made to receive them. The

Is Economical. The Coupons which it carries -- redeemable for useful articles -- are a further economy.

Government is alive to the situation in Northern British Columbia and is determined to do its part in fostering and encouraging every development movement, but while the Government must do all in its power, in a governmental way, yet the whole responsibility does not lie with the Government. A responsibility lies also with the people who already are resident in the district. They should be ready and willing to assist all newcomers, as well as to help each other. There must be team work all along the line. Too many people think that what they can do is too small to bother about, but they forget that the aggregate of this seemingly small effort amounts to a very great deal and should not be lost to the benefit of the country. The Government and the people are one and there must be an undivided effort to assist development wherever the possibility shows itself.

If you have something to sell and want more than it is worth, advertise in some other paper. The News cannot sell it.

TIMBER SALE X 1676.

Sealed tenders will be received by the Minister of Lands not later than noon on the 12th day of February, 1920, for the purchase of Licence X 1676 to cut 1,882,700 feet of Spruce, Hemlock, Cedar and Sitka, and 14,980 ties on an area situated near Usk, Range 3, Coast District. Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, or the District Forester, Prince Rupert, B. C.

WATER NOTICE

(Use and Storage).

TAKE NOTICE that North American Timber Holding Company, whose address is in care of M. C. Lawler, Dominion Building, Vancouver, B. C., will apply for a licence to take and use 200 cubic feet per second and to store 50,000 acre feet per annum of water out of Mosquito Lake, Moresby Island, also known as the west arm of Unashewa Inlet, which flows into Mosquito Creek and drains into west arm of Unashewa Inlet at its head. The storage dam will be located at the southeast extremity of Mosquito Lake. The capacity of the reservoir to be created is about 25,000 acre feet and it will flood about 500 acres of land. The water will be diverted from the lake at a point about the southeast extremity of Mosquito Lake and will be used for power purposes upon the land described as Lot 318, Queen Charlotte Islands District. This notice was posted on the ground on the 4th day of December, 1919. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914" will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is January 6, 1920.
