Soldier Fishermen Or Soldier Farmers.

The Dominion Government is aiding soldier farmers to settle down on the land. The idea is that we need production. Another form of production is to catch the fish that are going to waste in the ocean. Already some of it is being taken care of but much more fish might be caught.

The proposal has been made and endorsed by the fishermen in public meetings and also by the Great War Veterans that the Dominion Government should treat those who wish to become fishermen with the same liberality that they treat those who wish to farm. The suggestion seems reasonable enough and it is difficult to understand why there should be any hesitation on the part of the authorities in endorsing it and putting it in force.

To bring a man home from the war and set him up on a farm in the wilderness is playing at contrasts. It does not look very reasonable, unless it be for a man who is used to the farm. Even if he is taught the new business, the life is so different from the life in France and Flanders that there is doubt of its success. On the other hand to teach him the fishing trade is to give him excitement such as he is used to. There is sport in the game. It is a hard life perhaps, but it is full of interest. There is no business that the Soldiers Re-establishment Committee might better consider than that of fishing on this coast.

It will cost little more to set a man up in the fishing business than it does to set him up on a farm, and there is much greater hope of his being able to pay back a loan from the result of his work in the fishing business than there is from the output of the farm. The return would be much quicker.

Another thing to remember is that all men are not constituted alike. The business that one likes, another does not care about. We cannot all be farmers. There are many who would like to be fishermen. In view of the demand and of the opportunities, it seems the reasonable course for the Dominion Government to give the returned men an opportunity to take up fishing as a means of livelihood.

Fisheries Worth Much to Port.

Much interest has been taken in the summary of the fishing for last year as published in this paper Friday. In spite of drawbacks the catch for the year amounted to nearly fifty-nine million pounds. It is difficult to compute the value of this fish, but at an average price of ten cents a pound it is worth nearly six million dollars. How many places on this coast have an income from one industry only of anything like that amount. Nature has been good to us and it is for us to make the most of our opportunities. We must conserve our fisheries, but we must also make the most of them.

Refinery Would Be Great Thing.

A recommendation from the Board of Trade to the Government is that a refinery should be built on this coast for the purpose of converting the blister copper produced here to the commercial article. Mention is also made in the memorandum that the blister copper is shipped east over an American railroad instead of being sent by the natural route through this port. These are important matters.

We would like to suggest that now that the Government controls the Grand Trunk and Grand Trunk Pacific Railways, it use its influence to have the copper shipped by this port. Formerly a few car loads were sent out over the road. Of late, however, even that has stopped and an American line carries it.

We do not think that anything should be done to hamper the Granby Company in its operations. We want industries and if we are to get more we must treat them fairly. If we go trust hunting here we shall soon have no industries to hunt. What is suggested is that until a refinery is built on the coast the copper should be carried over the Canadian National Railway by way of Prince Rupert. It is understood that the same rate could be secured from here as from Tacoma and that the long water haul would be saved.

HIS LIFE RUINED BY DYSPEPSIA

Until He Tried "FRUIT-A-TIVES"
The Wonderful Fruit Medicine

MR. FRANK HALL

Wyevale, Ontario.

"For some two years, I was a sufferer from Chronic Constipation and Dyspepsia.

I tried every remedy I heard of without any success, until the wife of a local merchant recommended 'Fruit-a-tives'.

I procured a box of 'Fruit-a-tives' and began the treatment, and my condition commenced to improve immediately.

The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation.

I feel that I owe a great debt to 'Fruit-a-tives' for the benefit I derived from them."
