Dental Clinics

Matter of Health.

We desire to draw special attention to the report of the address on Free Dental Clinics delivered before the St. Andrew's Society at its meeting last night. The idea of the doctor is that there should be systematic examination of the teeth of the school children with a view to better attention being given them. It is not really the doctor's idea. It is the idea of every educationist that is up to date. It is a step in the evolution of morality, where a stage is reached where it is declared that the child is more important than money, whether it be the child of the rich or the child of the poor.

Editors Should Surely Visit Prince Rupert.

Prince Rupert will have to be on her best behavior when the British journalists visit the city next summer. The thing just now, however, is to make sure that they come. The Provincial Government has gone on record as desirous that they should visit, what they style "the north." The mayor and other organizations are doing their part. If anyone else has a suggestion that will help, this is the time to speak, for the arrangements are now being made, and once made, it is to be presumed they will not be changed. It will be useless to come out with a tirade of abuse when through carelessness the harm has been done. We might urge all our northern members to get very busy in connection with the matter, although doubtless they are already on the job. The letter to the mayor in regard to it was from our own representative, but there are also Messrs. Manson, Mobley and Ross who may help and Colonel Peck may also be able to add his urge.

Few Business Failures in Year.

There were few business failures either in Canada or the United States during last year. It is easy to do business on a rising market. In Canada there were only 755 commercial defaults, the smallest since 1881. Of the failures 213 were manufacturers and 494 traders, while the remainder were chiefly agents and brokers.

In the United States the number of failures was only 6,451, which is less than half of one per cent of all those doing business. In 1915 almost one and a half per cent of the businesses of that country failed, and these bad years will come again.

Publicity is Desirable.

The Victoria Trades and Labor Council has decided that it will admit reporters to all their meetings unless the matters to be discussed are of a specially private nature. They say that they get better results by admitting the regular newspaper reporters than by handing out reports through officers of the Council.

Reporters, being human, often make mistakes. As they almost always are working against time, they cannot always be as accurate as they would like to be. Yet the one requirement that every editor demands is accuracy. It is the essential of all journalism. Considering the difficulties under which the newspapermen work the wonder is that they do not make more mistakes. The average newspaper article is correct, and readers know it is probably correct or they would not read it with such avidity.

BECAME SO THIN SHE WAS AFRAID

"FRUIT-A-TIVES" Made Her Well, Strong and Vigorous

MADAME ARTHUR BEAUCHER 805 Cartier St., Montreal.

"I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headache, and was unable to sleep at night. I was getting so thin that I was frightened and saw several physicians who, however, did not seem able to help me.

At last a friend advised me to take 'Fruit-a-tives'. I did so and soon I felt some relief. I continued with 'Fruit-a-tives' and in a short time, the Constipation was banished, I felt no more pains or headache or the disagreeable sensations that follow dyspepsia. Now I am well, strong and vigorous."
