

**IF** you had a sore place, and had to choose between two remedies, one of which went to the sore spot direct, and the other by a round-about way, which would you prefer? Undoubtedly, the one that gets there direct!

That is just the reason for people's preference for Peps for ailments of the throat, bronchial tubes and lungs. Peps get there direct, because they are breathable, while remedies which are swallowed only go to the stomach.

Dissolve Peps in the mouth, and the vapor which is liberated is carried by the breath direct to the breathing passages and minute air cells of the lungs, destroying all germs, and soothing, healing, and strengthening the delicate membranes.

Once you try Peps you will never use any other remedy for coughs, colds, sore throat, bronchitis, tightness across the chest, night cough, laryngitis or asthma. All dealers 50c. box.

**FREE TRIAL** Send this advertisement and 1c. stamp (for return postage) to Peps Co., Toronto, and receive free trial package.

## NEW PREMISES FOR THE ROYAL FISHERY PLANT

Provincial Government Spending  
About \$1,000 in Making Ex-  
tension to Shed; \$5,000  
by Companies.

The shed at the government wharf is being extended eastwards 56 feet to accommodate the handling of fish by the National Independent and the Royal Fisheries plants. To make this improvement the removal of several shabby structures is necessary and the appearance of the wharf will be much enhanced as well as making it much more convenient. The new addition will not be the full height of the present shed, but will be only 12 feet high. It will cost the Provincial Government in the neighborhood of \$1,000 to make the necessary alterations. The addition will continue flush with the present shed, leaving a ten-foot frontage and six feet will be left at the end as a public passage.

The National Independent Fisheries will retain their plant, as at present, inside the shed and the new addition will be occupied by the Royal Fisheries. At the present time the two companies are using the same facilities and considerable inconvenience and confusion is experienced. On the completion of this work each company will install its own travelling scales, elevators and ice crushers, ice conveyors and ice houses. The plants will be then of a more modern nature and will be in a position to handle more fish and handle it more efficiently.

The expenditure involved by the companies will be in the vicinity of \$5,000.

## BORROWING POWER CAUSES DISCUSSION

City Fathers Argued Over the  
Advisability of Amendment to  
Municipal Act.

The borrowing powers of the city aroused considerable discussion at last night's council meeting when the mayor brought in a report recommending against the proposed amendment to the Municipal Act raising the city's borrowing power over 20 per cent of its assessment roll. The mayor felt that, with a power of borrowing 3 1/3 million dollars yet before this limit was reached, this action was a little premature. He explained that the work of the city could go on for many years inside this amount, especially as the debt of the city was continually being reduced and the assessment becoming higher.

Alderman Casey was inclined to differ from the mayor. It was his contention that the city would have to raise this 20 per cent limit to establish public works on a sound and unlimited basis. He said that the present system was, ultimately, going to lead to confusion and unfairness in taxation. He felt that, at least, the advice of the authorities should be gained in raising this 20 per cent limit.

Alderman Dybhavn was in favor of dropping the matter at the present time as the city's borrowing powers were ample for some time to come. Ald. Perry felt that Ald. Casey's contentions were quite in order and that he also desired a fair assessment.

Finally, after much discussion, Alderman Dybhavn moved and Alderman Kerr seconded, that the matter be left on the table for a week and in the meantime the aldermen could study the matter.

## ADVANCE OF WAGES TO GARMENT WORKERS

Twenty per cent Granted to Piece  
Workers and \$6 a week  
to Cutters.

(Special by G. T. P. Telegraphs.)  
CINCINNATI, Feb. 3.—Approximately 100,000 garment workers in the United States and Canada have been granted an increase of wages as the result of a conference between representatives of the United Garment Workers of America and the Union Garment Workers Manufacturers' Association of America. Piece workers are to get 20 per cent increase and cutters an advance of \$6 a week.

### DENTAL CLINIC FOR CHILDREN

Editor The News:—

I note with pleasure the assertions of Dr. A. H. Bayne in regard to the need of a dental clinic in the schools of Prince Rupert. It is very timely indeed and would add greatly to the efficiency of the children both mentally and physically.

While practising in the city of Vancouver with Dr. A. R. Baker, we were called upon to examine the teeth of the inmates of the reform school at Point Grey which upon examination were found to be in a very unsatisfactory condition, due to lack of care that a clinic properly conducted would totally eliminate.

In the schools of Vancouver Dr. Jerold Plant, a class-mate of mine, is the examiner and I understand he gives one-half day a week to the good cause.

There has been a saying among the dentists that "a clean tooth will never decay." These children should be taught in the schools how to keep the teeth clean, and be advised by a competent dentist from time to time as to the condition of the teeth. Charts should be given each child showing the condition of the teeth at time of examination. The parents could then have their family dentist do the work for the child, and when completed make his report to the dentist that examined the teeth in the clinic. These examinations should be conducted at least every three months in order to take advantage of the inroads of disease.

I would gladly give one-half day a week of my time at the office or at an established clinic in order to help the good cause along. I only wish I could devote my entire time to a clinic of this nature without compensation.  
DR. JOS. MAGUIRE.

## CARE FOR GRAVES OF THE ALLIED SOLDIERS WHO FELL NEAR MONS

OTTAWA, Feb. 3.—Word has been received by the office of the overseas military forces of Canada from M. Gustave Casey, president of an association formed by the people of Mons to care for the graves of the allied soldiers. The burgomasters and inhabitants of 81 communities of the district of Mons are assisting the association. The aim is to allot one grave to a family to be cared for and beautified.
