ALICE ARM HAS GREAT ACTIVITY

Work Continues Steadily Right Through Winter Season on Many Properties.

MUCH ACTIVITY WILL MARK COMING OF SPRING

ALICE ARM, Feb. 12.—Despite the fact that winter has the district in its grip at the present time, winter activity this year is many times greater than ever before in the history of the camp. There are nearly 100 men steadily employed in mining operations alone, 40 of these working on the Dolly Varden mine which is shipping on the average of 2½ tons per day to the beach by dog team and horses for shipment to the Selby smelter at San Francisco. Besides the ore being actually shipped the dump is increasing and by the time trains are again in operation there will be plenty of ore to keep them all running at full capacity, making as many trips per day as possible.

Prospects Bright.
Prospects for the coming summer season are also very bright. The Taylor Engineering Co. have recently started camp building at the Wolf mine for the installation of a water power compressor there and the railroad is to be extended from the Dolly Varden mine to the Wolf. Rumor has it that ore bunkers at the wharf are to be put in this season. A new steam compressor is being installed at the Dolly Varden mine besides the one already in operation there. The old gasoline compressor at the Dolly Varden is not used now, the two new ones being operated by oil burners.

North Star.
At the North Star mine a lot of good ore is ready to be taken out as soon as the Wolf extension is completed. Many other properties will also take on activity when this work is completed. Among these are the Toric, Tiger and Musketeer. On the two last mentioned claims the bondholders have at present men working proving up the properties. Other claims in the district show much promise and this summer should prove them up and make a number of new shippers.

Other Properties.
The Last Chance, belonging to Archie McPhail, is under bond to Price and Keith of New York, who are also interested in the Premier mine at Stewart. A diamond drill is working double shift on this property. After it is finished at the Last Chance the diamond drill will be moved to another claim, belonging to E. Pickett, which Crawford and Keith have also bonded. Development on a smaller scale is going on on the David Copperfield, Last Chance, Moose, Homestake, and Matilda claims.

Tunnel Contract.
A further contract for tunnel work on the Musketeer which has been sold by Al. Miner, Miles Donald, D. Cameron and J. Strombeck to J. D. Meenach of Seattle, has been let to A. McGuire. Already the tunnel is driven 100 feet but it is being continued with dispatch in order to have the mine a ready shipper when the Wolf extension is made. The mine is 40 feet above the railroad grade and is a most ideal shipping proposition.

Altogether, present activity is so great and the future is so bright that Alice Arm looks like a boom camp for the coming year and a season of great prosperity and increase in population is looked for.

SURPRISE PARTY

Number of Young People Raided Home of Mr. and Mrs. J. C. McLennan.

A surprise party was held last night at the home of Mr. and Mrs. J. C. McLennan when about thirty young people stormed the house en masse, carried the defences and captured the citadel. They then set out to enjoy themselves. The floor was cleared for dancing and the piano and violin were soon responding to the magic touch of the artists. Needless to say a most enjoyable time was spent, the party breaking up soon after one o'clock. Besides leaving, the raiders expressed themselves musically as to the unwitting host and hostess who had entered into the spirit of the occasion and done their best to add to the enjoyment of the evening.
