**Sport Briefs**

These balmy spring days bring back the hankering among the baseball fans to get up on the Acropolis or over on the Market Square and get the hypnotic sphere in action once more. However, one particularly bright noon day last week one of the fiends was sitting at lunch beside one of the local experts and the expert quickly dispersed his anticipations for anything immediate in the grand old game for he says they never start here before April. However, sporting gossip generally starts long before the actual performance and, indeed, baseball gossip is almost as interesting as the real old action with the rooting and cheering.

The same expert said that if we had a town team as excellent as we had last year we would be doing well. But there is no reason why we should not because our home run king is still here and this last winter has kept himself in good form at basketball. On the same team is our star pitcher who also remains in good trim. Besides the members of last year's district conquerors there have been some new men come in who held enviable reputations here two or three years ago. So there seems to be no reason why the Prince Rupert team should not be as good as the aggregation that took 13 out of 16 games last year.

In this "man's town" active support of baseball financially should be given by the many people who are so interested in it. Ever since the first scrub teams were made up here ten years ago the burden of financing them has always fallen on one or two persons and now is the time for a change. There is no doubt that baseball is the most popular sport played here and that is sufficient reason why it should be given fair support. Divided among many the cost would be little, more interest would be taken in the games and the unfairness would be removed. Even though the same people who went hundreds of dollars out of pocket last year over it state they are willing to do the same thing this year, why should they?

An example might be taken from smaller towns in the district like Alice Arm and Anyox. At both these places there have been baseball clubs organized for several years. A membership fee is charged and a button is given out to all members. Besides being a financial assistance such organizations lend an "esprit de corps" to the community teams and have proven to be good successes in both places. They are organizing up there now. What is the matter with Prince Rupert?

We may look for a better brand of competition this coming season than we have ever had before. Stewart is a boom camp now and so is Alice Arm. Before this, the teams at both places have consisted of older men but now younger men from the cities are drifting in and among them are always to be found those who have played good ball in the larger towns. For this reason

Rupert will have to work harder to keep her laurels than ever before and it is very unlikely that Ketchikan will be the only Northern town that will prove a serious contender. Alice Arm, Anyox, Stewart, Hyder, Ocean Falls, Swanson Bay and Ketchikan may be expected to bring forth good rivals and form a regular Aurora Borealis League.

**The Man in the Moon SAYS:**

THAT a knocker never hears the knock of opportunity.

THAT it is much kinder and better to use a sledge than to keep on tapping with a tack hammer.

THAT there are those who do things and those who talk about doing them.

THAT one doer is worth ten rillions of talkers.

THAT Shakespeare says that man has seven ages, but what about woman. The older she gets the more ages she invents.

THAT play is a sign of youth. If you can't play you have a leg in the grave and the dull earth has already closed over your soul and smothered it.

THAT if you would be welcome wherever you go, learn to pay cash. The man who wants long credit is placing a mortgage on eternity.

THAT truth is a lovely thing sometimes, but at others it is the venom that drips from the jaws of the deadly serpent.

THAT an optimist is a man who when he gets into the soup fancies he is in the swim.

THAT some people when they get into the best society never get out again, and if they do they are so useless that they might as well have stayed in.

THAT reformation is simply putting on a different style of corset.

THAT showing your neighbor to be wrong does not get you anywhere. Getting right yourself is the main thing.

**No Disqualification.**

WASHINGTON, Feb. 11.—The Postmaster General has ruled that the publication of liquor advertisements will not bar Canadian newspapers from circulation in the United States.

**NAVIGABLE WATERS PROTECTION ACT.**

R. S. C. Chapter 115.  
 The Kleanza Company, Limited, of U.S.K. British Columbia, hereby gives notice that it has under section 7 of the said Act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Land Registry District of Prince Rupert, Prince Rupert, British Columbia, a description of the site and the plans of reversible Aerial Rope-way over the Skeena River, proposed to be built over the said Skeena River at U.S.K. British Columbia, the supporting towers of the said Rope-way to be located on District Lots numbered 1487 and 833, Range 1, Coast District.  
 AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the said Kleanza Company, Limited, will under section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans, and for leave to construct the said Aerial Rope-way.  
 Dated at Prince Rupert, B. C., this 31st day of January, A. D. 1920.  
 KLEANZA COMPANY LIMITED,  
 z Patmore & Fulton, Solicitors.

**Three million dollars for a phonograph!**

That's what it cost to perfect the only instrument that RE-CREATES music so faithfully that no one can tell whether it is the living artist he hears or the phonograph—when one is heard in direct comparison with the other. Add to that three million dollars, Thomas A. Edison's genius, his vast knowledge and his indomitable will and you realize how much was required to make

**The NEW EDISON**  
*"The Phonograph with a Soul"*

"Now go ahead and build replicas," said Mr. Edison to his staff when he had finally achieved an instrument which would meet the tone test. "Call it the Official Laboratory Model and uphold the standards I have set to the last detail."

This three million dollar Phonograph is on display here—come in and hear it.

Ask for a copy of the beautiful book "Edison and Music" and the booklet "What the Critics Say" which proves Edison's superiority.

**Charles W. Teetzel, - Prince Rupert**

<p><b>MINERAL ACT</b>          Certificate of Improvements.  <b>NOTICE</b>          "Copper Crest" Mineral Claim, situate in the Naas River Mining Division of Cassiar District.
