

MOTHER GOOSE HAS RECEPTION

The Annunciation School Gives Interesting Cantata in Aid of Library Fund.

At the Annunciation School last night the parents and close friends of the pupils filled the assembly room upstairs to witness a Mother Goose reception performed by the pupils. The young people did their several parts wonderfully well. There were so many of them that it is difficult to single out any for special praise but the singing and speaking throughout was of a distinctly high character and reflects the earnest pains that must have been taken in preparation.

In the opening scene the children have been invited by their teacher, Miss Bright, to accompany her on a visit to Mother Goose Island. The cantata opens where they are gathered anticipating the trip. There is an opening chorus, and four songs all well sung and with the parts nicely acted.

The actual visit to Mother Goose Island brings forth all sorts of curious characters. Beatrice Meagher is Mother Goose and here is a Welsh dance in which Misses Riel, Burrill, Bowness, Teilly and Martin take part. It was excellently done. Perhaps the Mammy's Lullaby Chorus was the best bit of work of the evening.

At the close Bishop Bunoz spoke some words of appreciation, and his mention of the excellent training the children had received certainly must have struck a responsive note in the large audience.

A delegation from the hospital board consisting of J. B. Roerig and D. C. McRae met the city council last night to urge the adoption of a per capita grant by the city to the hospital rather than the old straight grant. It was the unanimous decision of the city council to make this form of a grant and the hospital is to be paid at the rate of 70c per patient per hospital day, payments to be made monthly.

Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

FREE TRIAL Cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

FIR TREE SUGAR

The American Forestry Magazine Speaks of Discovery of Professor Davidson.

(Special via G. T. P. Telegraphs.)

WASHINGTON, Feb. 17.—The American Forestry Magazine has an account of the growth of sugar on British Columbia fir trees. The discovery which is said to be of great value to chemistry, came as the result of investigations of Professor Davidson, chief of the botanical department of the University of British Columbia at Vancouver. A specimen of the product upon analysis is said to have indicated the presence of a large percentage of an extremely rare variety of sugar.

While fir sugar is not expected to become a factor in the food supply like the product of the Canadian beet, the article advances the belief that it will prove useful. Indians have made use of the sugar for many years.
