## War Memorial is Now Being Planned.

The Great War Veterans Association is now getting actively to work in connection with the war memorial which it is proposed to erect on the property above the city hall site. It is thought by the veterans that the time is propitious and that a commencement should be made with the work soon.

As this scheme has been under consideration for some time past, and as all the men are now home, who may be expected to return, this seems to be the time to get to work in real earnest to make the memorial an accomplished fact. It is for the committees to decide just what shall be done, but of this they may feel sure, that the people will be with them in establishing a suitable and permanent memorial of the men who lost their lives and of the other men who gave their services so freely and in many cases lost health or limbs for the cause.

Now that the site is already secured in a most suitable place, there should be little delay. All that is needed is to decide definitely on the plans and to raise the money.

## Library Should be Separate Institution.

A proposal has been made to have the public library included in the scheme. If this is done we hope the library will not be made subsidiary to anything else. To place it away upstairs, or to give it a subordinate position would be to sidetrack what should be the most important institution in the city. It is doubtful if the public library should be included in this scheme, but if it is, it should be given the best ground floor position and a librarian chosen as one who will be first and foremost a librarian, not a janitor or caretaker.

It is usually bad for a library to be included in any scheme which caters to other activities than educational. It sometimes helps when raising money to have this scheme tacked on, but it is better for the library to be in a shack with a librarian in charge than to be an adjunct to something else.

The library is a purely civic institution and should be taken care of by the city. The War Memorial is a matter more for individual citizens, civic in the sense that it should be the expression of the civic spirit, the civic sense of appreciation of services rendered.

## Revolutions Occur Regularly Here.

In this country we often have revolutions. Every time a government is overthrown, it is a revolution although a peaceable and constitutional revolution. In Ontario recently there was a revolution against the two old parties and a new one was formed which swept the country. That is a revolution of the right type. It is the method which must obtain in a proper self-governing country. Unless we are able to bring about changes in that way, and are willing to take defeat in a proper spirit, we are not really ready for self-government.

In this country there is every opportunity for self expression for every person or party. There is a proper constitutional means of obtaining redress at all times, although it is sometimes necessary to wait while the people are being educated along the right lines. If the reform is a right one, it will eventually win out.
