MANUFACTURER SEEKS A SITE

F. R. Leyland of New Westminster
Was Here With View to
Establishing New
Industry.

**IMPORTANCE OF CHEAP
POWER IS DISCUSSED**

Company Supplies it at Three-
Quarters of a cent a Kilowatt
Hour in Fraser River City.

"A suitable site with power is what I am looking for, in order to establish a factory for the establishment of laminated wood materials," said F. R. Leyland, factory manager of Laminated Materials Co. of New Westminster who returned home last night after making some investigations here.

The company which Mr. Leyland represents already has a factory at New Westminster where they manufacture water-proof ply wood panels and boxes. For this they use chiefly cottonwood. As there is a good supply of cottonwood in this district, up all the rivers, the company decided to investigate the possibilities of locating here. They sent Mr. Leyland to go over the ground and later he will return to look over timber limits and make a further investigation.

Five-acre Site.

"What we want is a five-acre site on the railway and water with a place suitable for booming logs," said Mr. Leyland. "Besides that we want to get about 1,200 horse power of electric energy sufficient to operate the factory. We have already ordered the machinery and we shall establish a plant somewhere, but just where has not yet been decided. The

NO PROFITEERING WITH ZAM-BUK

Before the war, Zam-Buk was 50c. a box. All during the war, when the cost of production was rapidly advancing, the price of Zam-Buk to the consumer remained the same. Now, with the war over, while some prices continue to soar, Zam-Buk is still 50c. a box! Not only so, but the same high standard of quality has been maintained throughout.

There has been no profiteering in regard to Zam-Buk. For every box you have bought, you have been asked to pay fair value only.

Is this method of doing business not worthy of recognition? Answer this question by continuing to recommend, to appreciate, and to use Zam-Buk—the greatest household healer of modern times.

Use it for all skin troubles, eczema, ringworm, abscesses, ulcers, boils, pimples, piles, blood-poisoning, chapped hands, cold sores, cuts, bruises, burns, scalds, etc.

supply of suitable wood is in favor of this place."

Asked regarding the power supply at New Westminster, Mr. Leyland said they had been paying one cent a kilowatt hour but the Western Canada Power Co. was now to give them a three-quarter cent rate. This was not a cheap rate compared with what they were giving others. A bountiful supply of power was what built up a community.

Importance of Power.

"I should like to emphasize this especially," concluded Mr. Leyland after half an hour of interesting discussion. "It is impossible to get your load before you have your supply of power. The power must come first and whoever puts in the power must be prepared to carry the concern a short time until the load is secured. Power is what builds cities. It is the one thing above all others that manufacturers look for when they are seeking a location. Take it from me, that if Prince Rupert has the power to sell at a competitive rate she will find no difficulty in securing the industries. You must have the goods, however, before you can sell them."

It is understood that Mr. Leyland's inquiry will come before date with a view to urging the Board of Trade at an early desirability of having sites and power available for concerns that may be in search thereof.

GRANDPARENTS OF MISS WALKER ARE GIVEN A SURPRISE

Young People Gather at Home of
Mr. and Mrs. Patmore and
Present Cup to Grand-
Daughter.

About thirty young people surprised Mr. and Mrs. L. W. Patmore at their home on Borden St. last night to congratulate them on having attained the great distinction of being grandparents. The evening passed all too quickly, the hours being lured away through the wiles of dancing and song.

Following a bountiful supper served at midnight a presentation of a sterling silver mug suitably inscribed was made to "The Patmore Granddaughter," Miss Margaret Eleanor Walker, and entrusted to Mrs. Patmore to deliver to her daughter, Mrs. Robert Walker. The presentation was made on behalf of the young people by H. F. Pullen, and Mr. Patmore and Mr. Walker each suitably replied.

The party broke up shortly after one o'clock after spending a most enjoyable evening.

ICE CONDITIONS ARE BAD OFF NEWFOUNDLAND

HALIFAX, Feb. 19.—Newfoundland reports are that ice conditions are worse this year than ever before, the ice being solid farther south than has been previously experienced. The officers of the patrol vessel Bear say that the lower end of the pack is black with walrus, indicating that the ice is solid for a great distance north as the animals always congregate near open water.

Two-color window cards take the eye quickly. See them at the News Job Department.
