The Man in the Moon
SAYS:

THAT one of the new books, "The Edge of Doom," makes one of the characters remark: "Women who purr on the least provocation are the ones that get married."

THAT, therefore, the inveterate bachelors should beware of the "women who purr," or in other words, "scats!"

THAT it seems something of a cat and mouse game.

THAT doubtless owing to the fact that it is leap year, very few engagements have been announced since January 1.

THAT a contemptible contemporary tries to be funny by remarking "Pity the poor editor."

THAT there is no other kind of editor except a poor one, so far as I have been able to discover.

THAT of the eleven million women wage earners in the United States it is said that not one is working for her husband. The reason given is that "the brutes won't pay."

THAT a Winnipeg lady sued for breach of promise of marriage, claiming \$10,000 but the judge decided the interference to her matrimonial projects was worth only \$850, and gave judgment accordingly.

THAT it is not often now that men are sued for breach of promise.

THAT man is not valued as highly as he used to be, especially since woman has learned to earn her own living.

LAND REGISTRY ACT.

Application No. 11365-L. File 6274.

HEALTH OFFICIALS
WARN THE PUBLIC

Prompt Treatment of Every
Case of Cold is Required.

When the "flu" epidemic swept the country last year it was generally agreed by medical men that there would be a recurrence of the attack this winter. So far it has not swept with the violence of last year but there is hardly any large community in which it is not present to some degree.

In view of the ever present danger of the disease breaking out health authorities are everywhere advising the public to observe extraordinary precautions. One of their first advices is to treat all cases of colds as dangerous, the conditions in such cases being similar to those in the first stages of "flu."

For the treatment of colds there is no precaution equal to Grip Fix, which may be secured at any drug store. It is not a patent medicine but a treatment which would be approved by your family physician. The drugs it contains are stated on every box and cover just the drugs needed in such cases. Grip Fix is not a new preparation as it has been in use for many years, doing wonderful work during last year's "flu" epidemic. It comes in convenient capsule form and when buying it is to get the Grip Fix as there is nothing "just as good." It sells for 35 cents per box and is worth its price over and over when a cold appears. On sale at all druggists.

LARGE COTTON
COMMERCE MAY
ARISE IN EAST

British Investigator Reports That
Results Obtained There Exceed
Production in Egypt and
America.

BRITISH RAILWAYS AND
CANALS TO OPEN IT UP

BLACKBURN, Feb. 28.—"When Mesopotamia and the Soudan are opened up by canals and railroads by the Imperial Government, it is probable that a large commerce in cotton from those countries will arise," says Fred. Hodgkinson, who has just returned from a trip of investigation in the East on behalf of the British Cotton Growers' Association. "The results obtained in experimental farms already established in Baghdad, Mesopotamia, and in the Amara region of the Eastern Soudan have shown a yield of more than double that in Egypt and three times as much as that in America."

NO EMBARGO
ON SECURITIES

Complicated Financial Condition
Follows Raising of Ex-
change Rates.

OTTAWA, Feb. 28.—The question of embargoing the import of securities has got no further than a suggestion emanating in particular from the bond people. No action has been taken by the Government and Sir Henry Drayton, minister of finance, will not say whether any is in contemplation. Canada, he pointed out, has always protected the investor. Canada held overseas amounts to a very large sum, conservatively estimated at \$1,250,000,000. These securities of railway, municipal and government issues of pre-war days were purchased by the overseas investors, many of them at as low a rate as four per cent. These securities are being returned in order that the profits, which the rate of exchange today yields, may be secured. Many of them are railway securities guaranteed either by the provinces or the Dominion. They would yield 6.10 per cent. It is obviously impossible to continue bond stabilization at par on securities yielding only 5 1/2 per cent when the credit of the Dominion, can be purchased at a rate to yield 6.10.

Proper financing by the provinces also becomes impossible. Railway securities guaranteed by different provinces have in a like manner been sold out at rates yielding from 6 1/2 to 6 3/4 per cent.
