**SAVE YOUR SIGHT**

**EYESIGHT**—The most valuable of all the senses—is the most neglected and the least understood. Many suffer from ill, which, upon examination, can be traced directly to defective eyesight.  
The removal of the cause will often restore the delicate and run-down sufferer to robust health. When glasses are properly prescribed, they restore the vision to normal and eliminate all eye strain.

**Premier of Roumania Expresses  
Himself in During Interview  
to Pall Mall Gazette.**

LONDON, March 5.—Alexander Vaida Voeved, premier of Roumania, in an interview printed in the Pall Mall Gazette regarding the appointment of Admiral Horthy as regent of Hungary is quoted as follows:

"The new Hungarian Regent will try in every possible way to effect the restoration of the Hapsburg dynasty with Charles as king. Under the direction of Admiral Horthy the direction of the Allied Supreme Council will be flouted at a ripe moment and the kingdom established.

"The Hungarians believe the Allies are too weary to take serious action. For some time there has been a secret organization in Hungary of all men between the ages of 18 and 26. Arms have been obtained in Austria and efforts made to obtain munitions in Warsaw."

Vaida Voeved predicted that the former emperor's son will be proclaimed king if the plan to restore the emperor, himself fails.

**TERRACE**

Dr. H. C. Wrench, of Hazelton, and Dr. Beech have made a careful investigation of the local water supply and other likely mediums for typhoid fever, and have come to the conclusion that the two recent cases have not been due to local causes.

The funeral of L. F. Beesley, late manager of the Bank of Montreal here, took place on Sunday afternoon with interment in Kitsumkalum Cemetery. Rev. T. J. Marsh conducted the service and a large number of friends were present to pay last respects.

"Terrace was treated to a picture show in Progress Hall on Monday entitled "The Little Pirate," starring Zoe Ray. The show was put on by Cecil Barrie, the magician.

B. O. Albertson met with a painful accident at the Island camp last week when his hand was terribly gashed with a buck saw. Dr. Beech treated the wound, putting in several stitches.

The death occurred last week of the infant child of Mr. and Mrs. T. H. Walsh. The youngster was only seven weeks old.

**The Man in the Moon  
SAYS:**

THAT Ketchikan has formed a company to operate aeroplanes.

THAT at Lancaster, Ohio, in 1828 permission was asked to use the schoolhouse to debate the question of the practicability of railroads.

THAT the reply given by the school trustees was: "You are welcome to use the schoolhouse to debate all proper questions in, but such things as railroads and telegraphs are impossibilities and rank infidelity. There is nothing in the Word of God about them. If God had designed that his intelligent creatures should travel at the frightful speed of fifteen miles an hour by steam, he would have clearly foretold it through His holy prophets. It is a device of Satan to lead immortal souls down to hell."

THAT the Winnipeg Free Press funny man tells that the world is breaking its neck to get hold of Canadian lumber, pulpwood, news print, wheat, butter, cheese, eggs, and flour. Then he asks if someone won't also take Canadian hot air, cold weather, burglars, bandits, profiteers, the Senate and the city councils.

THAT a lot of men would rather be in the moon than the sun, because they would see more interesting things.

THAT the most familiar and disagreeable sound in the world is "Line's biz-ee."

THAT it is a man who says it is always a woman at the other end.

THAT they can threaten, they can bellow, they can go investigate, but the cost of living rises just the same.

THAT they can fume and they can holler, they can go and legislate but the cost of living rises just the same.

THAT they can talk of deportation for the hardy profiteers, they can bunk the patient public with a lot of phony steers, they can wave their fists and orate for half a million years, but the cost of living rises just the same.
