SAVE YOUR SIGHT
 EYESIGHT—The most valuable of
 all the senses—is the most
 neglected and the least understood.
 They suffer from ills, which, upon
 examination, can be traced directly
 to defective eyesight.
 The removal of the cause will
 often restore the delicate and
 broken sufferer to robust health.
 When glasses are properly prescribed,
 they restore the vision to normal
 and eliminate all eye strain.

PRINCE RUPERT HEADQUARTERS

Northern B. C. Farmers' Co-operative Association Consider This Place Promising Market.

The Smithers Farmers Institute has decided to form a Northern Interior Co-operative Association which will supersede the Farmers' Institute and for which a certificate of incorporation has been received. They will join with the Telkwa Farmers' Institute who have already entered. With the two institutes lined up for the amalgamation of interests, delegates have been appointed who will attend the meetings of other Farmers' Institutes in the district pressing their joining up in one big body.

It is the purpose of the newly formed association to obtain better control and management of the tremendous markets existing between Prince George and Prince Rupert which takes in the numerous lumber camps, canneries and other centres. The city of Prince Rupert is also considered a potential market for handling many times over what the valley would produce. For proper control of this market the co-operation of all the farmers in the entire district was necessary.

Outlined Plan.
 A. J. Prudhomme in addressing a meeting of the Smithers Farmers' Institute outlined the plan of organization for the new association, stating that it was a share capital plan whereby the farmers would have an interest in the company. The shares were in denominations of \$100 and to make it easy for the buyers they could be bought in \$10 installments every three months. Warehouses would be erected at various centres and the market could thereby be controlled to protect the farmers against loss. The head office would likely be Prince Rupert, where the general manager would be stationed.

Mr. Prudhomme stated that a good inducement had been offered in Prince Rupert whereby the association could go into business in that city and be provided with free light, rent and water.

NEW STEWART WHARF OF ADEQUATE SIZE

Larger Boats May be Landed There Than at the Wharf Used at Present.

The new wharf at Stewart, for which tenders have been called by the Dominion Government Department of Public Works, will be a substantial structure and a decided acquisition to the town, both as a matter of architecture and convenience. It will be built about half a mile west of the present wharf and landings may be effected at it by any steamers at any point of the tide. This was impossible with the old wharf, as at some stages of the tide it could hardly accommodate a steamer the size of the Prince John and it was also built out along an unsightly mud flat. The new wharf will be 50 by

Treatment for Influenza Cases

Simple Home Treatment to Ward Off Attacks in Early Stages.

The appearance in last year's epidemic of influenza taught us that the disease should be fought in its early stages. Here the symptoms are similar to a cold in the head and the same treatment should be used, usually with effective results.

Any physician will tell you that the drugs to use in such cases are Cascara, Phenacetine, Quinine, Salol, Caffein Citrate and Camphor Monobromate. The action of these is to quickly break up the cold and even conquer an advanced stage of Grippe.

These drugs are offered the public in Grip-Fix, a preparation for use in the home. It has been on the market for ten years and did wonderful work during the 'flu epidemic of last year. It comes in capsule form, convenient to take and giving quick action. It relieves a cold in a night and usually breaks up an attack of grippe in 48 hours. There is nothing in Grip-Fix which works injury to the system. On the contrary, it has a general toning up effect.

Grip-Fix is for sale by all druggists. Get a box to-day and have it in the house. Prompt treatment of colds is half the battle. When asking your druggist for it be sure to get Reid's Grip-Fix as there is no preparation "just as good" for colds. It sells at 35 cents per box.

100 feet in dimensions with an approach of pile work 200 by 20 feet. There will also be a 30 by 15 landing float with a stationary platform and stairway. This will accommodate the many smaller boats that call at the port. On the wharf will be erected a warehouse 30 feet long, 20 feet wide, with a height of ten feet. There will be a derrick put in with a ten foot swing operated by a 4,000 pound hand winch operated by one man.

SMITHERS

At a meeting of the Fair Association held last Saturday, the date of this year's fair was set as September 21. A sale of stock will be incorporated with this year's fair. Great expense will be incurred this year in the improvement of the fair grounds.

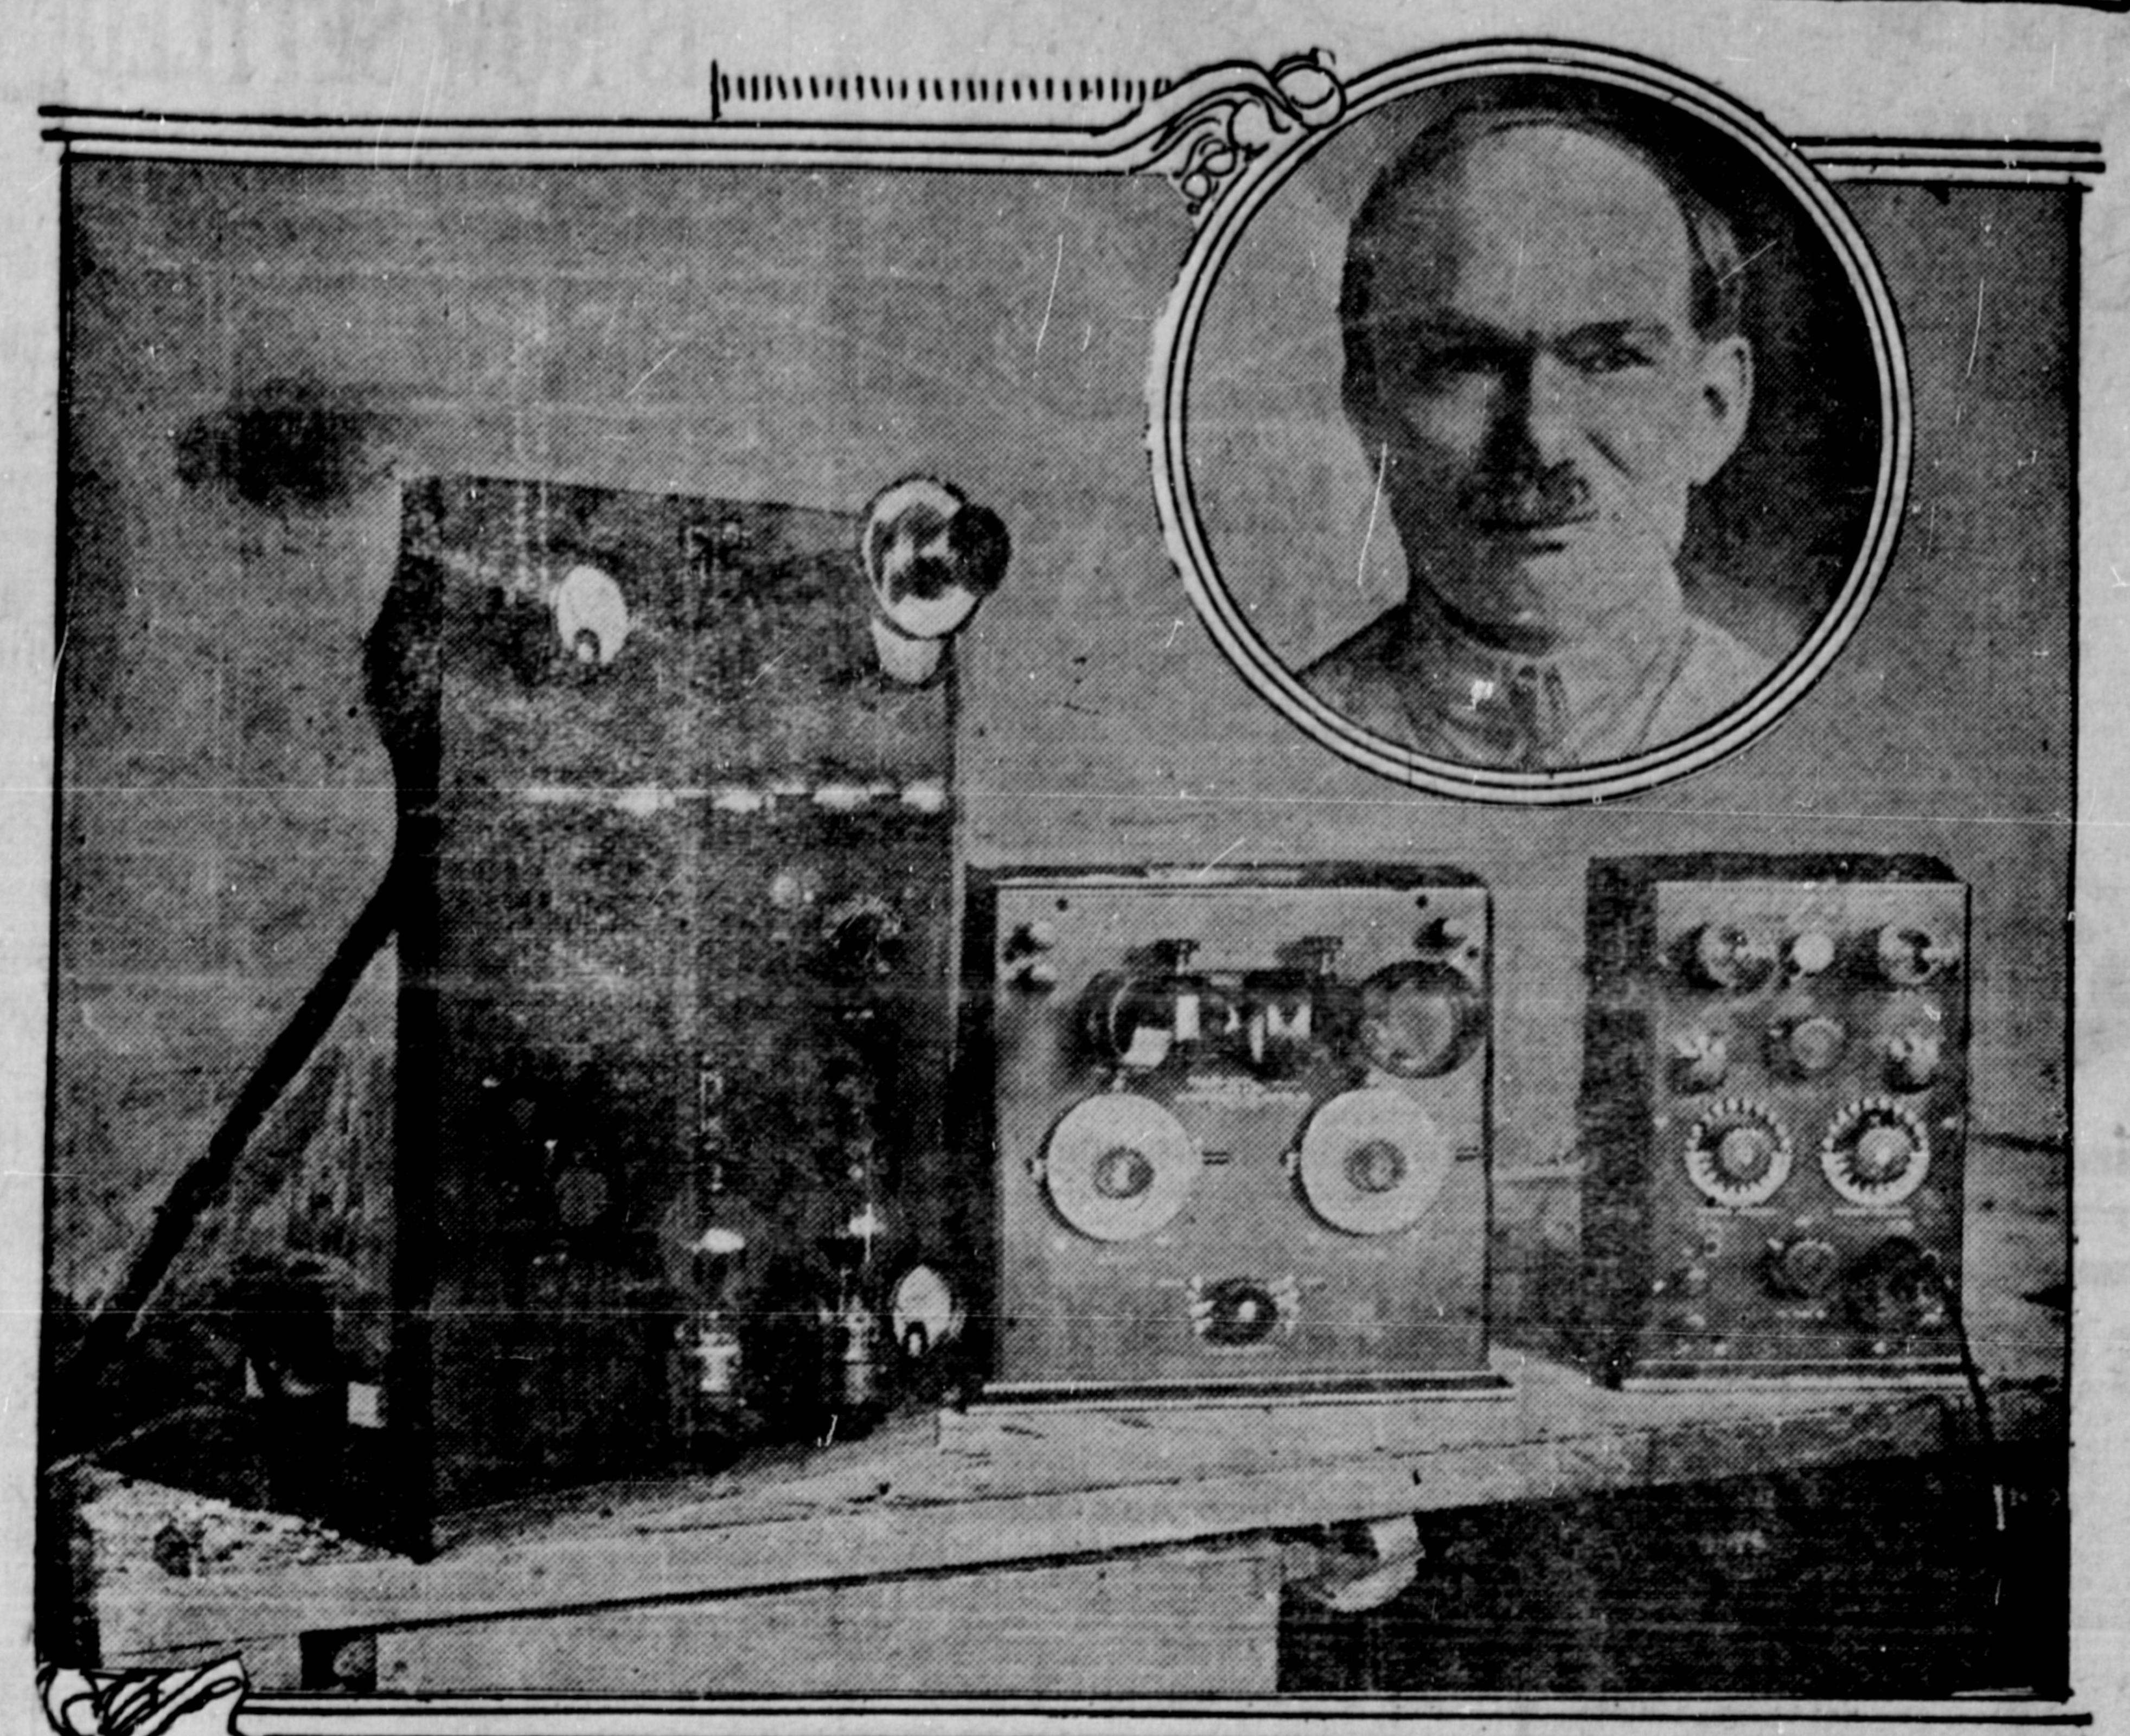

Stephen H. Hoskins, government agent, has returned from a visit to coast and prairie cities.

Two dozen of the Smithers young folks took possession of the home of Mr. and Mrs. Wm. Doodson on Tuesday night, the call being a surprise on Miss Kittie Doodson, who is to leave soon for Australia to be married. A jolly dance was enjoyed, after which a most delightful luncheon was served. A feature of the evening was the dancing of little Miss Zona Fowle.

After a week spent as the guest of Mrs. William Mitchell, Mrs. William Clark returned to her home in South Bulkley on Saturday. She was accompanied by Mrs. Mitchell, who will visit South Bulkley for a short time. A large and attentive audience was present at the Methodist Church last Friday night when Rev. Mr. Deans gave a descriptive lecture of his experiences on the Western Front.

Pianos correctly tuned. \$6.00.
