### "Wee MacGregor" DRAG SAW

The Original Light Weight, Portable, Gasoline Operated Drag Saw and Power Plant. Frequently Imitated—Never Equalled.

For cutting cordwood, shingle bolts, land clearing—to replace hand-bucking in the woods or on the water—in any position and under all conditions—anywhere—the "WEE MACGREGOR" is without an equal. The free working clutch, expanding metal band type, on the engine shaft, positively will not slip. It does away with all fabric band linings which are expensive and unsatisfactory. Use oil freely on it.

## STEWART STRIKE IS NOW SETTLED

New Cook Provided at the Premier Mine and Men Return to Work Monday.

That the Stewart strike is now settled and the men are returning to work on Monday, is the word brought by J. H. Burrough, who arrived this morning on the Prince Albert. He says that the terms of settlement at the Premier mine are as follows:

1. A competent cook has been secured.
2. A minimum wage of \$6 per day for all day labor, which is an increase of 50c per day.
3. The strikers to be reinstated and the men that went up with Mr. Harris to get the jobs they engaged for, this without prejudice to their claim for damages.
4. Bundles to be hauled to and from the mine free of charge.

Mr. Burrough says the management voluntarily offered to meet a committee of the men at any time. There are about 150 men in Stewart waiting for the mines to open up which will be in from six to eight weeks.
