SAVE YOUR SIGHT

YESIGHT—The most valuable of all the senses—is the most neglected and the least understood. Many suffer from ill, which, upon examination, can be traced directly to defective eyesight.

The removal of the cause will often restore the delicate and broken-down sufferer to robust health. When glasses are properly prescribed, they restore the vision to normal and eliminate all eye strain.

LOCAL TALENT HOLDS ITS OWN

Last Night's Concert Shows Prince Rupert Does Not Have to Import Entertainment.

SYMPHONY ORCHESTRA IMPROVING RAPIDLY

That plenty of real excellent musical talent, both vocal and instrumental, exists in this city was fully proved by the performance put on last night by the Prince Rupert Symphony Orchestra Society. The Westholme Theatre was practically filled to the doors with an enthusiastic audience to whom every number offered was fully appreciated and loudly applauded. It was indeed a treat for the most of the listeners to get away from the ordinary grind of moving picture and dance music and hear something in the way of art. The sixth concert given by this organization which has brought an invaluable and heretofore unknown form of entertainment to Prince Rupert music lovers was as big a success and as fully enjoyed as any offering yet made by them, composed as it was of entirely local talent.

Speaking for the orchestra itself, it is now whipped into a class which would do credit to the most of professional bodies. To Professor Harvey who has devoted many hours of his valuable time without reward or hope of any, great credit is due. He has made an orchestra out of what, a year ago, was only a handful of amateurs. The members play with a precision that would hardly have been thought possible to gain.

The orchestra numbers were Sousa's "High School Cadets March," Czibulka's waltz intermezzo, "Love's Dream After the Ball," Air from Louis XIII., Amari's Pizzicato by Ghys, Donizetti's "Sextette from Lucia di Lammermoor," and Handel's "Largo."

Soloists.

Mrs. Jarvis McLeod, as soloist of the evening, fully lived up to her reputation as a vocalist. Her clear and sweet soprano was pleasing to the audience and her solos were executed with a sympathy and feeling that would be hard to excel. She sang Piccolomini's "Queen of Angels" and answered the continued applause with "Mother Machree," which was equally delightful. As her second number on the program she sang Ethelbert Nevin's immortal "Rosary."

Professor Harvey came to the aid of the concert well last night when it was ascertained, at the last moment, that J. Stuart Pudney could not be present to recite. He delighted all with "I Love You" and "Flowers" in his rich tenor. The piano solo by Miss Lillian M. Stephens, Rachmaninoff's beautiful "Prelude in C Sharp Minor" was excellently rendered and Miss Stephen proved herself to be an excellent soloist as well as accompanist. Mrs. Director's recitation "Caudle Has Been Made a Mason" was a pleasing diversion placed just in the middle of the program. It was made very pleasing in its humor

by Mrs. Director's clear-cut, sharp manner and she answered the encore with "My Sister's Best Feller." John Fotos played Godard's "Berceuse" with a good deal of feeling and his technic, for a boy, is indeed excellent. Schubert's Serenade played as a cornet solo by J. Peyton, accompanied by the orchestra, was one of the most beautiful selections of the program.

Treatment for Influenza Cases

Simple Home Treatment to Ward Off Attacks in Early Stages.

The appearance in last year's epidemic of influenza taught us that the disease should be fought in its early stages. Here the symptoms are similar to a cold in the head and the same treatment should be used, usually with effective results. Any physician will tell you that the drugs to use in such cases are Cascara, Phenacetine, Quinine, Salol, Caffein Citrate and Camphor Monobromate. The action of these is to quickly break up the cold and even conquer an advanced stage of Grippe.

These drugs are offered the public in Grip-Fix, a preparation for use in the home. It has been on the market for ten years and did wonderful work during the 'flu epidemic of last year. It comes in capsule form, convenient to take and giving quick action. It relieves a cold in a night and usually breaks up an attack of grippe in 48 hours. There is nothing in Grip-Fix which works injury to the system. On the contrary, it has a general toning up effect.

Grip-Fix is for sale by all druggists. Get a box to-day and have it in the house. Prompt treatment of colds is half the battle. When asking your druggist for it be sure to get Reid's Grip-Fix as there is no preparation "just as good" for colds. It sells at 35 cents per box.

Gene Byrnes Says:—"It's a Great Life If You Don't Weaken."

The cartoon depicts a man named Gene Byrnes who is suffering from a cold. He is shown in various states of weakness and discomfort. In one panel, he is holding a box of Grip-Fix and looking at it with a determined expression. In another, he is coughing and looking miserable. In a third, he is lying on the ground, exhausted. The cartoon concludes with Gene Byrnes sitting up, looking healthy and happy, with a speech bubble that says "IT'S A GREAT LIFE IF YOU DON'T WEAKEN".
