

Suits that are pressed frequently and cleaned occasionally wear 25 to 50 per cent longer.

How to make your old suit last

"It is not every man that can afford to wear a shabby coat," Robert Colton once wrote.

The words hold as true now as when first written, three-quarters of a century ago.

Nevertheless it is needful today to make the old suit last—though not at the expense of becoming tattered.

Between the costliness of clothing at the one extreme, and shabbiness of them at the other, there is a middle ground where economy and good appearance meet.

Our modern dry cleaning establishment is this middle ground. Here our experienced cleaners can tune up your old clothes and preserve your new.

Every person realizes the business advantage and the social value of clothes well cleaned and neatly pressed, but there is more in these details than improvement of "looks" alone.

Ask your tailor or your clothier. They will inform you that apparel frequently pressed, and cleaned at intervals of two or three months, will wear from 25 to 50 per cent longer than clothes that are not so considerably cared for.

There is a sound reason for this. You wash your linen when it becomes soiled—it is a matter of self-respect and personal hygiene, of course, but it is also true that if left unwashed your shirts would wear out much more quickly.

Perspiration, oils, grease, and fruit juices have a corrosive effect; dust and dirt have a grinding action—your outer clothing needs purging of these equally as much as does your linen.

The cleansing gasoline baths used in our dry cleaning process, and the pressing of the presser, with hot steam working through the fabric, have a sterilizing action—your apparel is made, by our scientific treatment of each garment, as immaculate outside as inside, it keeps its shaper better, and is saved from tell-tale shininess.

Your old suit will last longer, and your new suit will do double duty if you will more frequently use our modern cleaning and pressing service, which is specially organized to meet your individual needs.

Get started on the road to clothes economy. We offer you prompt delivery and all the advantages of our up-to-the-minute dry cleaning methods. Telephone us today.

SHIPS FOXES TO TERRACE

E. J. Moore Comes From Prairies to Enter Lumber Business in B. C.

E. J. Moore, who has been farming for the past twelve years near Millet, was in Edmonton on Thursday billing out his effects to Terrace, B. C., where he intends in future to reside, says the Edmonton Bulletin. Mrs. Moore and his sons are also in the city en route to their new home.

Including in the shipment were 7 horses, 2 cattle, chickens, turkeys, and last but not least two pairs of silver foxes. Mr. Moore states that they have grown foxes for some years, and for the first few years, found foxes an unprofitable investment. Just as they were on the point of getting rid of animals, things changed and for the past few years have made a profit that more than made up for those first lean years. Just recently a pair of pelts from eight months old pups were sold to Robt. Allish of Edmonton, for \$1,450.

Mr. Moore intends to go into the lumber business in British Columbia, but will also do a little farming on the side.

SAWMILL CONTRACT MAY BE QUASHED

Order from B. C. Public Utilities Commission for Regular Industrial Power Rates.

A letter from the Public Utilities Commission of B. C. was read at last night's council meeting ordering the cancelling of secret or special rates to industrial corporations by municipalities. This, it would seem, has been decided on by the commission. It was referred to the utilities committee for their information. They will ascertain who are affected by it in this city.

The mayor stated that the only company here that would suffer from this would be the Prince Rupert Sawmills and it would practically smash their contract. Ald. Casey saw the jealousy of municipalities in the new order. Ald. Dybhavn summed the order up stating that it meant that there should be regular industrial power rates in all municipalities.

COUNCIL PROTEST LEVEL CROSSING

Five to Two Vote Protests Against Application of Provincial Government—Deemed Unsafe.

The level highway crossing at Cow Bay caused considerable discussion at the council meeting last night and finally Alderman Rochester fathered a successful resolution protesting against the Provincial minister of public works asking the Railway Commission to have a level crossing at that point. Ald. Rochester's motion was seconded by Alderman Kerr and Aldermen McLennan, Casey and Currie voted for it while Aldermen Dybhavn and Wilson-Murray were the only supporters of a level crossing. Alderman Perry did not vote, his sole object being safety for the public regardless of what kind of a crossing went in.

The main tone of those who wished to kill the application was that the proposed crossing would be highly unsafe, Ald. Rochester, an old railroad man, giving strong reasons and instances against it. Alderman Dybhavn supporting the crossing stated that the council did not understand the plans thoroughly or they would favor them.

WILL ADVERTISE FOR SOLICITOR

Two Men Already Want Job so All Will be Given Chance.

It was decided at last night's council meeting to advertise in local, Vancouver and Victoria papers for applications for the position of city solicitor, applicants to name the salary required. This was done in view of the fact that one man had already visited the city with a view to taking the position, while Ald. Casey had met another lawyer in Vancouver who wanted the position.
