PRINCE ALBERT HAS BIG LOAD

Plenty of Coal for Various Points
and a Big Cadillac Jitney
for This City.

The Prince Albert arrived from the south last night at 12:45, having made the trip direct from the south without calling at the lower Queen Charlotte Islands. The John was in, the only vessel that is maintaining the regular run to Skidegate and other ports nearby and she left at noon today for the south.

The Albert was loaded pretty well with coal, which she will discharge here and at various other points in the vicinity. She will go up the Skeena with some of it. Besides the coal, the Albert had a quantity of air line water pipe and a new Chevrolet automobile for Stewart.

The Albert brought north pipe and a one-ton Ford tractor for Buckley Bay. A fine twelve-passenger Cadillac automobile which was formerly in the Blue Funnel Jitney Service between Vancouver and New Westminster, was also brought here for J. E. Dyer and it will be commissioned in the Seal Cove jitney service.

NEW INDIAN ACT HAS GREAT POSSIBILITIES

OTTAWA, March 22.—The act to amend the Indian act now seen for the first time in its printed form, shows provisions so sweeping that the act, if it passes, will sweep away in the course of a generation all the legal distinctions now existing between Indians and those now citizens of Canada.

The vital clause of the act says: "On the report of the superintendent-general that any Indian, male or female, over the age of 21 years is fit for enfranchisement, the governor-in-council may by order enfranchise such Indian, and from the date of such order the provisions of the Indian Act and of any other act or law making any distinction between the legal rights, privileges, disabilities and liabilities of Indians and those of his majesty's other subjects, shall cease to apply to such Indian or to his or her minor unmarried children, or, in the case of a married male Indian, to the wife of such Indian, and every such Indian and child and wife shall thereafter have, possess and enjoy all the legal powers, rights and privileges of his majesty's other subjects, and shall no longer be deemed to be Indians within the meaning of any laws relating to Indians."

JIMMIE CLARKE HURT, ANDERSON COMING

Roi Barnes Has Just Received
Word to This Effect From
Ben Self.

Roi Barnes has just received word by wire from Ben Self at Seattle that Jimmie Clarke, who was to have met Chet Neff in a fifteen-round boxing contest on March 31, injured his arm seriously in his fight with Cloney Tate at Calgary on Friday.

His hurt is such that he will be unable to fight Chet Neff here as previously arranged. Arrangements, however, have been made to bring up Harry Anderson, the former champion of the Northwest, in his place. Anderson is a clever fighter and fought Clarke in Prince Rupert several years ago, when he obtained the decision. Still more recently he held Freddie Welch down to a draw in four rounds. Arrangements are being completed today and everything should be in readiness for the 31st.

Mr. Monroe is an old timer here. He was G. T. P. freight agent before going overseas. His new duties commenced March 17.

AURORA BOREALIS AFFECTS TELEGRAPHS

Electric Display Mixes Messages
and Interferes With the
Local Service.

Last night there was an aurora borealis, which was not seen by many but which had a bad effect on the telegraph wires. These electrical displays always weaken the current and generally disturb the sending of messages, and the local offices suffer considerably. Such is the case today. Telegraphic conditions were very poor this morning.

Alleged to Have Struck Inoffensive
Passerby When Under the
Influence of Liquor.

Constable W. J. Stoker, of the Dominion Royal Mounted Police, appeared in the police court this morning charged with assault and was fined ten dollars by Magistrate McMordie.

Alfred Price was the informant and told of walking along Eighth Street and looking at a couple of mounted policemen. One of them, the accused, asked him if he was looking for trouble and hit him on the face.

Chief Vickers said he had seen a couple of mounted police at that corner who appeared under the influence of liquor shortly before the alleged assault.

Warden Bailey and Constable McGlinchey also gave evidence.

The accused took the witness stand and said that he had never seen the informant in his life. He had been drinking 2 per cent beer during the night in question.

RAILROADERS WON IN FOOTBALL GAME

Second Half Turned Into a Score-
fest When Defenders
Went to Pieces.

The football game on Saturday between the Grand Trunk Pacific and the Great War Veterans resulted in a victory for the former team by a 4-3 score. The Veterans' team was picked up at the last minute and some of the most effective players were absent.

There were no scores in the first half but in the last 30 minutes both defenses blew up and all the scores were made. On account of the cool, cloudy weather there was not a large attendance. William Kerr made a very efficient referee.

NAVY YARD AT ESQUIMALT IS TO BE CLOSED

H. M. S. Rainbow Will be Sold
and Officers on Her
Demobilized.

FOUNDED IN 1845 BY
BRITISH ADMIRALTY

VICTORIA, March 21.—The Esquimalt Navy Yard will be closed down on April 1, the officers demobilized being allowed to join the fisheries service if they wish.

His Majesty's Canadian ship Rainbow that was purchased as a training vessel from Great Britain by the Laurier administration, is to be sold.

The Esquimalt Navy Yard was established in 1845, two years after the founding of the Hudson Bay trading post in Victoria. From time to time it was built up by the Imperial Government, hundreds of thousands of dollars being spent in the erection of docks, stores, forts and administration buildings.

When the Imperial Government withdrew its naval squadron from this coast, the navy yard was turned over to the Canadian Government and was little used for a number of years. The sloops of war Algerine and Shearwater in the British Government service still continued to make her headquarters there and the old Egeria did survey work out of that port.

When the Borden Government came into power the Rainbow was paid off and laid up and the yard neglected. The outbreak of hostilities, however, caused renewed interest at the Navy Yard and the forts were manned, the biggest guns, the 9-2 on Signal Hill, being the heaviest calibre there.

MUCH FISH WAS LANDED

But on Account of Car Shortage
Will Have to be Put into
Cold Storage.

Several boats were in for yesterday's fish sale but on account of the car shortage which does not promise to be relieved until at least Tuesday night the bidding was indifferent and the prices offered were low. Some cars are reported between here and Winnipeg. In the meantime all the fish unloaded here has to go in cold storage.

The King and Winge is unloading 55,000 lbs. for the National Independent Fisheries. The Sitka with 60,000 is unloading at the cold storage. The following boats sold yesterday: Sampson, 9,000 lbs.; Fisher, 14,000 lbs.; W. & F., 8,000 lbs.; Caygeon, 7,000 lbs., and Rose Spit, 6,000 lbs., all to the cold storage at 12c and 6c. The Nautilus sold 5,000 lbs. to the Royal Fisheries at the same price. The Albatross cleared for Seattle with 17,000 lbs. The Coronado is in this morning with 1,000 lbs.

The New England boat, the Prospector, which has been in the salmon packing service for the last couple of years, is in port and will go up in the dry dock to be put in shape to go back halibut fishing.

APPEAL FOR NURSES READ IN CHURCHES
