Fish Returns Very Impressive.

In order to impress upon members that Prince Rupert was not talking without the book, Col. Peck asked for official returns on the amount of fish caught in the different districts on this coast. The returns showed that Prince Rupert district produced fish, mostly salmon and halibut, to the value of \$6,783,434, while the district which includes both Vancouver and New Westminster produced only \$3,413,991. The other district, which includes the whole of the Vancouver Island coast, produced fish to the value of \$4,716,599. This last district included the salmon which are caught in the Todd traps at Sooke on their way to the Fraser River.

If there were any members of the House of Commons interested in this question it must have been an eye opener to note the value of production from this district and the fertility of Vancouver and New Westminster people trying to control the policy of the people here.

Iron of North Should be Developed.

If it is true—and we believe it is—that there is an immense iron deposit at Copper River, sufficient to warrant the erection of a smelter in this district, some steps should be taken to keep this to the fore and try to secure a smelter in the district in the near future. Iron is the most useful of metals and the demand for it will be continuous, especially at a time when there is so much building to be done.

Vancouver and Victoria have been making strenuous efforts for a long time to secure an iron and steel works in their neighborhood. Possibly there is room for an iron works there as well as here. At any rate if anything can be done to secure development of this north country, it should not be neglected.

Difficult to Realize Amount of Development.

It is difficult for the people of Prince Rupert to realize the amount of development that is going on in this neighborhood, especially in connection with mining. Every steamer from the south brings numbers of mining men who are going to different sections of the north coast and some to the interior.

One feature which is most encouraging is the intention of many owners of prospects to do development work, not with the purpose only of fulfilling the law in regard thereto, but with the idea of converting the prospects into mines that will produce ore in shipping quantities.

DRYGOODS STORE IS OPENING HERE SOON

Vancouver People Take Corner of Third Ave. and First St. for Retail Business.

Joseph Fadool and associates have taken the corner store in the Cotes Block on Third Ave. next to Teetzel's music store, and are opening soon as a men's and ladies' clothing and drygoods

shop. They will also sell children's clothes.

Mr. Fadool comes from Vancouver where he has been in business. He says he thinks he has a good location on the corner of First and Third and he will go out after custom as soon as he has his stock ready. The place will be known as the Asia Trading Store.

Mr. and Mrs. D. A. Harris continued their journey to Stewart on the Prince Albert yesterday.

GUARD AGAINST THE 'FLU

Serious Outbreaks of Influenza all over Canada

GOOD HEALTH IS THE SUREST SAFEGUARD

"FRUIT-A-TIVES" Brings Vigor and Vitality and Thus Protects Against Disease

There can be no doubt that the situation regarding the spread of Influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disguising the fact that everyone should be on their guard against the disease.

In Montreal alone, from January 20th to February 21st, three thousand, one hundred and twenty-two cases of Influenza and 189 deaths from the disease were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But coming as it has, at the end of the winter, there is grave fear that an epidemic may occur. For spring, with its slush and rain under foot, its dampness and chill, its constant changing from cold to warm and back again, is a prolific source of coughs and colds, pleurisy and pneumonia.

The best protection, in fact, the only safeguard against the 'Flu, is, GOOD HEALTH.

Those who are not as well and strong as they should be; those who are underweight; those who are "run-down" through overwork or sickness; should build up at once. What they need is a Blood-purifier, a body-builder, a strength-giver, like "Fruit-a-tives", the wonderful fruit medicine.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and renews the vitality of the nervous system. "Fruit-a-tives" contains everything that an ideal tonic should have; to purify the blood, to build up strength and vigor, and to regulate the eliminating organs, so that the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only as a precaution against the ravages of Influenza, but also to protect you against "spring fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-tives" today and let this fruit medicine keep you well.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 boxes for \$2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.
