WILLIAM FARNUM IN
"WOLVES OF THE NIGHT"
The story "Wolves of the
Night," shown in picture at the
Westholme last night, was one
of Farnum's best. The big hero
was even more impressive and
dramatic than ever.
The story is of a mining en-
gineer who, having sought in vain
for copper ore in his land in the
Northwest, has converted it into
a sheep ranch. Adjoining is a
mining plant in full operation,
owned by three men who covet his
property.
The hero, Bruce Andrews, por-
trayed by Mr. Farnum, is sent to
Chili to investigate some mines.
While there he is imprisoned in
a mine through an explosion, and
news is conveyed to his wife that
he has been killed. He escapes
after days, but is crazed by his
sufferings.
The denouement of the story
is one of the most dramatic ever
seen on the screen.

George Adams arrived from
Winnipeg, where he has been
spending the winter, on Thurs-
day night's train and will go to
Alice Arm by the Venture on
Monday morning.

The
Camp Cooking
Revealed This
On Saturday we had a letter
from a lady in New Westmin-
ster who asks that her name
be omitted.
She said they discovered
Pacific Milk while she cooked
for her husband in a camp last
summer, where no fresh milk
was to be had.
It made such delicious and
fine grained cakes and hot
breads and at less cost that she
kept on using it when they
came back to town.
She says "Always reduce it
at least half with cold water."

DRAG SAW**

THE ORIGINAL LIGHT WEIGHT PORTABLE, GASOLINE
OPERATED DRAG SAW & POWER PLANT
(Frequently Imitated Never Equalled)

The "WEE MacGREGOR" Drag Saw is an inexpensive
practical and proven machine, peculiarly adapted for the rapid
and accurate cutting of wood under any conditions, on land or
water. With equal facility and proportionate rapidity it will cut the small or large log
up to seven feet in diameter. Depending upon size and character it will cut from either
green or dry logs, 20 to 30 cords of wood a day.

So light is its weight it can easily be carried from one point to another. One man
can move it on the log and two men from log to log. It has sawn a 2-foot log in 50
seconds, a 4-foot log in 3 minutes and a 6-foot log in 6 minutes. Its operating cost for
gasoline, oil and grease is approximately 4 cents a cord.

Full operating instructions are furnished with each machine, and its mechanism is so
simple it can be operated and kept in order by any person. Its power can be harnessed
to the feed cutter, the pump, the circular saw, the churn or the separator.

We carry in stock at all times in our Vancouver Warehouses a full line of service
parts. In case of emergency there is no long wait for delivery.
