Harry Hanson's Patent

Patent Office, Ottawa, January 27, 1920.

Sir,—I am directed to acknowledge receipt of your letter of the 17th inst. on the subject of Canadian patent No. 162632, granted to you on the 18th May, 1915, for a "Water Heater" and in reply to inform you that this patent was not made subject to the conditions of Section 44 of the Patent Act, (compulsory licence system) and is governed by Section 38 of the said Act, an extract from which I beg to enclose herewith.

I am also to inform you that the fee for the second six years term has not yet been paid, but it does not come due until the 18th May, 1924. The required amount is \$20.00 and a covering letter referring to the patent by date and number, and stating the purpose for which the remittance is made is all that will be necessary.

I have the honour to be,

Your obedient servant,

(Signed) W. J. LYNCH,
Chief of the Patent Office.

Harry Hanson, Esq.,
139 Second Avenue,
Prince Rupert, B. C.

With regard to the above letter, I wish to say that as I have complied with section and paragraph 38 of the Patent Act, and therefore do not come under Section 44 of the said Act, and as I am equipped and willing to install, make and sell said "Water Heater" to any and everybody, I therefore according to law can, and hereby do withdraw the privileges of others making these water heaters.

I am willing to negotiate for an agency to make my water heater, with anyone willing to pay the royalty of \$2.00 on each one installed on the distinct understanding that a year's guarantee goes with it.

PROBABLY WAS SUICIDE CASE

Alice Arm Miner Mysteriously Left
Hospital and Not Seen Since;
O. B. U. Protest.

OWNER OF ESPERANZA
AND OTHERWISE WEALTHY

A delegation from the Central Labor Council consisting of J. H. Burrough (spokesman), S. V. Cox and Fred. Shaw appeared before the city council last night to protest the action of the authorities in the matter of the disappearance of Baldemero Salinas, a Spaniard of Alice Arm and owner of the Esperanza mine there.

From the story of the delegation it would appear that Salinas had been an inmate of the hospital and was mentally deranged. On March 2 he left the institution and has since disappeared. He was seen on Hays Creek bridge acting in a strange manner and talking about committing suicide. His friends are afraid that he has taken this action. The point protested is that his leaving the hospital was not reported.

Not on Record.

Alderman McLennan, who is a member of the Hospital Board, told that his entry at the hospital had not indicated that he was mentally unbalanced. The doctor may have known this but as there was nothing on the hospital records to show it the hospital officials could not be held responsible. He had been in the habit of sleeping at the hospital and going out during the day, sometimes staying till evening. When he had finally left and not returned there was not much notice taken of it.

Suggested Neglect.

Ald. Casey stated that he understood that the doctor knew of his mental state. It had been reported by his friend Gomez. There was no question as to his mental disability, as people had noticed it in the hospital and prior to his going there. In fact the man gave way. Ald. Casey thought it was gross neglect to not report the matter and it was wrong to give him unrestricted liberty. To let him disappear without reporting it was the protest of the delegation and he would join in it. The alderman also stated that he had been seen to attempt to jump over Hays Creek bridge one evening at 9 o'clock. He had an estate of \$3,400 cash and also mining interests. The thing should be brought to a head.

Serious Matter.

Mayor McClymont remarked on the seriousness of the matter. Probably no one was responsible at the hospital. It was news to him that there were any cases of this nature there. He ordered the matter to be investigated by the members of the hospital committee, Aldermen Murray and McLennan. The official administrator is to be notified.

"THE BETTER WIFE" AT THE WESTHOLME

"The Better Wife," a Select Picture which Clara Kimball Young and her own company will present at the Westholme Theatre tonight is a delightful love story of England and the Continent. Miss Young has the part of Charmian Page, a young American girl who is touring Europe with her father. One day while she is visiting her friend Helen Kingdon in England, she becomes acquainted with Sir Richard Beverly, whose wife, Lady Beverly, is killed while racing in a car to meet her lover. Charmian falls in love with Sir Richard's son, Little Dick, and becomes practically a mother to him. Charmian is also in love with Sir Richard, but the Baronet hesitates to speak of his love because of the sacred memory of his wife. He does not know until later that someone else would have made a better wife.

TRAIL TO SEAL COVE NEW MARINE WAYS

W. E. Thompson, of the Seal Cove Marine Ways, appeared before the city council last night asking that a trail from his plant to the grade at Eighth Avenue be put in. The trail would be about 1,500 feet in length and would probably cost about \$75. The mayor and the city engineer were out looking the situation over this morning and will report at the next meeting of the council.

Suits that are pressed frequently and cleaned occasionally wear 25 to 50 per cent longer.

How to make your old suit last

"It is not every man that can afford to wear a shabby coat," Robert Colton once wrote.

The words hold as true now as when first written, three-quarters of a century ago.

Nevertheless it is needful today to make the old suit last—though not at the expense of becoming tattered.

Between the costliness of clothing at the one extreme, and shabbiness of them at the other, there is a middle ground where economy and good appearance meet.

Our modern dry cleaning establishment is this middle ground. Here our experienced cleaners can tune up your old clothes and preserve your new.

Every person realizes the business advantage and the social value of clothes well cleaned and neatly pressed, but there is more in these details than improvement of "looks" alone.

Ask your tailor or your clothier. They will inform you that suits frequently pressed, and cleaned at intervals of two or three months, will wear from 25 to 50 per cent longer than clothes that are not so considerably cared for.

There is a sound reason for this. You wash your linen when it becomes soiled—it is a matter of self-respect and personal hygiene, of course, but it is also true that if left unwashed your shirts would wear out much more quickly.

Perspiration, oils, grease, and fruit juices have a corrosive effect; dust and dirt have a grinding action—your outer clothing needs purging of these equally as much as does your linen.

The cleansing gasoline baths used in our dry cleaning process, and the pressing of the presser, with hot steam working through the fabric, have a sterilizing action—your apparel is made, by our scientific treatment of each garment, as immaculate outside as inside, it keeps its shaper better, and is saved from tell-tale shininess.

Your old suit will last longer, and your new suit will do double duty if you will more frequently use our modern clearing and pressing service, which is specially organized to

Get started on the road to clothes economy. We offer you prompt delivery and all the advantages of our up-to-the-minute dry cleaning methods. Telephone us today.
