Hearst Papers Continue Campaign.

The Hearst journals in the United States are continuing their campaign of vilifying everything British. There are not many open attacks, but seldom an edition of the big papers misses faking a dirty slap of some kind at John Bull.

Best Elements Discourage it.

The Hearst papers are made to pander to the lower element of the American people. They periodically work up a campaign against the British, largely for political purposes.

Canadians have nothing to say about what shall be published in the United States. What they do is their own business, not ours. The people of Canada have, however, the right to say that this poisoned stuff shall not be brought across the line into Canada.

Free Newspapers And Free Speech.

To talk about the freedom of the press is very nice. We all know, however, that freedom is only a relative expression. We are all struggling to be free, but freedom is largely a matter of education and training.

This type of journalism is in line with the free speech which allows men with a gift for vilification to mount a tub and sway a mob in such a way as to incite them to commit crimes.

Let your Dentist Prevent Disease

A neglected mouth breeds disease. A decaying tooth is a sick tooth and if not restored to a healthy condition will carry disease throughout the system.

Neglected teeth undermine your health. Do not wait until pain drives you to your dentist.

GOOD TEETH MEANS GOOD HEALTH. I am at your service with high-class dentistry at a price you can afford to pay.

My prompt methods are extreme gentleness should please the most exacting. I welcome comparison.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.
