Fletcher

Fashioned

S. Fletcher says she keeps use for her brother in a little town on the Coast. "I am quite well-fashioned in my ways, and they say they like the old ways of cooking. Perhaps they're a little flatterer an old woman." At any rate she says that all her cooking is done with Pacific Milk and that so far as her experience goes she prefers it to fresh milk. "Though I was raised on a farm," she adds.

DOLLY VARDEN SUITS ENTERED

Announcement of Refusal to Disallow Provincial Act Followed by Litigation

VANCOUVER, April 17.—Litigation in the British Columbia courts to have the Dolly Varden Mines Railway Act of 1919 declared ultra vires and of no effect was launched within a few hours of publication of the Dominion Government's refusal to disallow the act. Two writs were issued from the office of Burns & Walkem, local solicitors, on instructions from R. T. Elliott, K. C., legal adviser of the Dolly Varden Mines Company, original owner of the valuable mine which came into the hands of the Taylor Engineering Company under the terms of the provincial legislation which it is now sought to have set aside.

One writ asks for a series of declarations setting aside the act and all proceedings taken under its provisions. The other writ asks for damages for alleged trespass and for payment to the plaintiff of all money realized from ores produced at the mine.

The Taylor Engineering Company and the Taylor Mines Company are named as defendants in both actions. In the damage action the names of the incorporators of the Taylor Mines Company are added as defendants. These are: A. J. Taylor, H. C. Chine, John Anderson, C. M. Rolston, J. F. Tener and R. P. Butchart.

In the action which raises the constitutional question about the validity of the Legislature's act, C. M. Rolston is the only personal defendant in addition to the two Taylor companies. The first declaration sought is that the Dolly Varden Act is ultra vires of the Legislature and invalid and of no force and effect. The second declaration asked is the setting aside of all acts, documents and proceedings under the said act as invalid, unlawful and void, together with the delivery and cancellation of all documents and registrations affecting the alleged rights, titles and claims of the plaintiff.

Setting aside of all proceedings before Justices Clement and Murphy under the act is asked. Another order asked is that the defendants be required to execute and deliver to the plaintiff company all documents and writing necessary to reinstate the plaintiff company in the position it occupied before the passing of the act.

FINE CONCERT AND PICTURE

Miss Mary Izard and Mrs. D. B. Morkill again captured the large audience at the Westholme last night. Miss Izard's violin playing was splendid and Mrs. Morkill was in good voice.

The picture, D. W. Griffith's "The Great Question" is a real human interest story of love and life and with the psychic element rather strong. It deals with the life of a girl and of course there is a boy. It is a picture well worth seeing and should attract a good crowd at the Westholme tonight.

At the Empress June Elvidge will be seen again in the fine film "Love and the Woman."

FERRYMAN ADAMS WAS KILLED AT CLAXTON

Jammed Between Boat and Dock He Was Crushed to Death. Well Known.

The death occurred yesterday afternoon at 1:15 of James Adams the well known ferryman between Port Essington and Haysport, at Claxton Cannery. This was the word received by Chief Minty of the Provincial Police, yesterday afternoon. Coroner John Conway left for the scene on this morning's train to investigate.

The death occurred when the deceased was working with his boat at Claxton and in some manner was jammed between a launch and the piling of the wharf. One man was a witness to the accident.

Mr. Adams was a well known old timer and especially so with travellers who went to Port Essington as he has been engaged for several years in the ferrying of passengers and mail from the railroad at Haysport across the river. He was about 60 years of age, and leaves a widow who resides in Port Essington.

Harvey Linzey has taken over the building loan held by George Doughty and will commence the building of a residence at the corner of Ninth Ave. and McBride Street at once.

Hugh B. McGuire, a well known New York mining man, has recently bought several claims in the Salmon River valley and expresses much faith in that section.

"Save the surface and you save all" (Paint & Varnish)

Make a real job of it.

PAINTING becomes necessary as your property increases in value, and as property was never so valuable as today there is a greater need than ever for that kind of paint which actually preserves the surface and thus saves the entire house.

This spring, to make a real job of it, use

B-H PAINT

because it combines permanence, covering capacity and economy.

If B-H "English Paint" was dearer than it is, it would still be the most economical—the shorter life of other cheaper brands makes them more expensive in the end.

It contains the famous Brandram's Genuine B.B. finely-ground white lead—70%—to which is put 30% of pure zinc—a guaranteed formula that no other paint can boast. To this mixture is added fine turpentine and linseed oil from the B-H mills, which is of a quality in keeping with the other ingredients.

When you use B-H Paint you will notice its "body" and brilliance—you will compare the extreme covering capacity with other brands—the permanence you will be able to prove by other exteriors painted with B-H paint years ago.

This Store sells B-H Products—Color cards free on request.
