Monday Sermonette, What Do We Work For?

What do you work for? Why do you not live the same as the man you pity, who never has a bean and who has to draw on his day's pay in order to buy his lunch? Is it any advantage to work and to try to do the work well? These are questions which the pause of Sunday gives time to think about. These are a few of the questions that are passed on as suitable for meditation next Sunday.

Most men work for wages. They are after the money there is in it. No matter whether it be employer or employed, the monetary reward is what we are reaching out after. It is necessary to have money to live and the more money the better the life, in reason.

There is more in work than the money reward, however. Money is simply the incentive and not the end. When a football team plays for a cup, the members look to the reward, but after all the reward is nothing. It is the development of the men when seeking the reward that really counts. So it is with the work of life. Work spells development; idleness spells degradation. Work is absolutely necessary for every man, if he is to develop or even to hold his own.

The average man who stops work after making his pile dies. He has nothing more to live for. There are a few, however, who have hobbies who turn to those when they give up business, and the hobby provides the incentive.

Making money is a poor aim in life, but it is better than none. The aimless man gets nowhere and his life is usually miserable. To be care free is to revert to the jellyfish condition.

The Poor Fools, Why Do They Work?

In an effort to be fair to readers of this paper and from a spirit of curiosity, the foregoing screed which was written on Saturday afternoon was shown to the laziest man in Prince Rupert with rather startling results. It is impossible to reproduce exactly what he said but it was something like this:

"Say, cut it! You guys make me sick. What's the use of working? Where does it get you anyway? If it makes you live longer, is the world any better for that and are you any better? Why want to live? Why want to evolve or develop? I suppose you are right that a man should have an aim in life. Mine is to have as easy a time as possible. That is what I live for."

"Talk about your jellyfish with contempt if you like, but give me a jellyfish any day rather than the modern businessman. The jellyfish let me tell you enjoys life, but the modern B.M., how can he enjoy anything? He hasn't time to enjoy even a roast turkey. He has to bolt his food because it is a waste of time to eat it properly. He talks shop all the time and thinks of nothing but profits, as represented by dollars. He is a nervous machine chasing a shadow. Get rid of the idea that there is any merit in living like that. It isn't life, it's the raving of a crazy man expressed in action."

"If all people were like you would have them, what would become of art? Who would make your beautiful pictures or express themselves in beautiful music? Life under your conditions is nothing but a fox trot with beastly jazz from beginning to end."

"Let us alone, do. Give us time to live. You editors and businessmen and reformers are all alike. You want to drive us all to hades when we want to remain in heaven. What is the good of sunshine if you have no time to enjoy it? Why have beauty if you have no appreciation of it? Do you ever look up the harbor from the waterfront and see the clouds rolling over the glacier in the distance and think of the loveliness of the scene? No, you only think of rain when you see a cloud. You only think of so many kilowatts of energy when you see a waterfall, you think only of medicinal herbs when you see a flower. Why not forget these things sometimes and get a little appreciation into your barren soul and remember that there is something in life besides chasing dollars, besides building cities, besides sewers and streets, besides railroads and steamships. Your utilities are mostly futilities. Go to your aunt, you sluggard, borrow another dollar and enjoy yourself. Let the fools who know no better worry over the present and the future. Most of your worries are really things that never will happen. Life might well be one long dream, but you make it one long screeching scream."

Extraction of Teeth

Let your Dentist Prevent Disease

A neglected mouth breeds disease.
A decaying tooth is a sick tooth and if not restored to a healthy condition will carry disease throughout the system.

Neglected teeth undermine your health. Do not wait until pain drives you to your dentist.

GOOD TEETH MEANS GOOD HEALTH.
I am at your service with high-class dentistry at a price you can afford to pay.

My prompt methods and extreme gentleness should please the most exacting. I welcome comparison.

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-TIVES"

MR. AMEDEE GARCEAU

32 Hickory St., Ottawa, Ont.

"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician."

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again."

I look upon this fruit medicine, 'Fruit-a-tives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial."

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.
