Appreciation of Work of Amateurs.

Last Sunday night the Prince Rupert Symphony Orchestra completed a most successful season, and last night and Monday the Amateur Dramatic Society put on a most successful comedy, the third of a series. In each case good work was done and the people here were provided with good clean entertainment by their own people.

The Symphony Orchestra was a boon to the community, for it not only provided entertainment but helped to develop the musical taste of the community and to create an interest in instrumental music. The Amateur Dramatic Society has done something the same for the histrionic art. The work in the play just shown was in many respects first rate. It is to be hoped that next season these two organizations will again take up the work that the city will benefit.

Plebiscite on Prohibition.

The Provincial Government has arranged for a plebiscite to be taken on the Prohibition Act. The people will decide whether or not they will continue as at present or have the government sell liquor in sealed bottles. If the people decide for continuation of prohibition, the prohibition leaders in the south say they will try to have a petition sent to the Dominion Government asking for a bone dry measure, somewhat similar to that in force during the war. It is now up to the people. The plebiscite to be taken will be on the following form:—

WHICH DO YOU PREFER?

(1) The present "Prohibition Act"?

or

(2) An Act to provide for Government Control and Sale in Sealed Packages of Spirituous and Malt Liquors?

(Mark a X in square opposite one you prefer.)

Trouble Between China and Japan.

China takes exception to the position that she has to negotiate with Japan in regard to the return of Shantung, the place which was taken from Germany during the war. Three million students are reported to have gone on strike as a protest against such action. The argument is that the territory is China's and she should not be obliged to negotiate in order to get it. It should have been a part of the treaty. It was not in the treaty because it was understood that Japan would surrender it voluntarily. That was to protect the Japanese pride.

It is probable that Japan will give up the territory, but China feel that it is demeaning to have to ask for it.

Boycott is Powerful Weapon.

As soon as the treaty was signed, China brought about a boycott of Japanese goods. That is her great weapon. She has used it before with good effect. On more than one occasion the boycott has been brought into force and as a result not a pound of Chinese freight was carried on a Japanese vessel and not a single Chinese passenger would travel on a Japanese ship.

The Chinese are well organized in some respects. There are many secret societies that have a wide influence and through these it is possible to carry out a virtual blockade of goods of any nation that offends.

STOPPED HER HEADACHES

Years Of Suffering Ended By "Fruit-a-tives"

112 HAZEN ST., ST. JOHN, N. B.
"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine 'Fruit-a-tives', made from fruit juices. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried 'Fruit-a-tives'."

After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since". Miss ANNIE WARD.

Saturday, April 24.

High, 5:13 a.m., 12.2 feet.

18:36 p.m., 17.5 feet.

Low, 11:59 a.m., 4.3 feet.

The time used is Pacific Standard, for the 120th Meridian west.

It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.
