Member Outlines Work of Session

Hon. T. D. Pattullo tells of some Important Measures Passed; Water Work Important; Team Work for District

"This last session, the fourth of this parliament, was noteorthy in many respects; at no session has legislation of a more far-reaching and beneficial character been passed," said Hon. en't tried it yet. It is T. D. Pattullo to the Daily News this morning.

"So many measures of prime importance were passed that teacup sugar, a pinch it is difficult to pick out those of transcendent importance. A

few of them, however, may well be mentioned.

Elections Act.

"There is of course the new Elections Act, touching one of the vital phases of our political freedom. I think it is generally conceded that the new act is a very advanced measure and I am glad to say that the opposition and government alike spared no effort to make the act as complete and protective as possible.

"There is also the Highway Act, which for the first time undertakes to handle the highway situation in this province upon a really scientific basis.

"Then there is the Mothers' the 6th Pensions Act. No one will dis- feet of Cedar, Spruce, Hemi pute the beneficence of this meabenefit of the act will no longer be dependent upon charity or Victoria, B. C., or District Forester, Prince even worse to properly sustain themselves and their dependents but as a matter of right will be Notice of Intention to Apply to Purchase properly protected.

Certificate of Improvemente.

NOTICE

H. A. MACLEAN.

"Another measure which I look upon as one of the most important passed by the present parliament is one making amendments to the Water Act. The amendments this year are the culmination of three years of constant study of the many and the following difficult problems to be met under the operations of this act. It

is generally understood that under this act the complex and in- C. W. V. A. AFTER belt is provided for, but it is not so generally understood that under the act as it now stands not only can we take care of the irrigation situation but we can under-Will Make Vigorous Demand for take either directly or by way of all its phases which includes hydro-electric development. The importance of this measure will be increasingly appreciated as time goes on.

Members Stood Together.

"The estimates this year are Great War Veterans' Association, the first publication of this generous and the north I am glad because of the general's state- section 7 of the said Act, to say is receiving the attention ment that increased pensions minister of Public which it merits. We exceedingly would encourage women in idleregret the loss by death of one of ness, according to a statement our northern members as our made here last night by fan Mc- day of January, A. D. 1920. numbers are too few as it is. I Kenzie, president of the local am glad to say that when the branch of the G.W.V.A. Prince Rupert estimates came up, Mr Mackenzie has wired the against which there was a little Dominion secretary for Brigafilibuster my colleague from the dier-General McLean's exac north, the member for Omineca, words stood by me and we were able to convince the House of the merits of our case. In passing I may say that the member for Omineca is one of the hardest and most energetic workers in the House.

"I had expected that the Premier would have come north with me this trip but at the last mo-

visit Stewart, Alice Arm and other he issuance of such Certificate of Importions of the Atlin district, also Dated this portions of my own district, 1920. Prince Rupert.

"Needless to say this is a very busy time. I am glad to see everything so prosperous. I can remember only a short time ago when everybody wanted a government job and it was some favor to secure even a pick and shovel job. I remarked at that time that I hoped the day would come when a government job would be the poorest job in the country. It is gratifying to note that that time is here now in spite of the fact that some very substantial increases have betn granted in the government service.
