DAILY EDITION.

Saturday, May 8, 1920.

Fish Wharf is Badly Needed.

Prince Rupert, Canada's greatest fishing port, has nothing in the way of accommodation for the fishing boats except a float provided by the Provincial Government at Coy Bay. A year ago we were told that the Dominion Government was going to build a dock, but now there is doubt about, it.

As has often been pointed out, it is not the work of the Provincial Government to build docks. The Dominion Government has a department of marine that looks after the work.

It has been suggested that the reason for the delay in building the local dock is due to the fact that the elections have been postponed for a couple of years. There is no reason to please the people here just now, but it would be better to give them the dock just before the election. We can hardly believe that. At anyrate we hope it is not true. We need the dock now and hope that nothing will be allowed to hinder the work.

Iron and Steel to Be Discussed

When the Minister of Mines visits Prince Rupert next month, the mining committee of the Board of Trade will be ready to meet him and discuss fully the matter of the establishment of iron and steel works in this neighborhood. Already an immense amount of data has been collected in regard to the matter and this will be assembled in such a way as to show ? that this is the logical point for the establishment of the industry. 2

This is the crucial time and the matter should be taken up with vigor and no stone left unturned in the effort to show that this is the place. In the meantime it is to be hoped that private interests will take the matter up and undertake the work independent of the Government, except that they will earn the bonus of three dollars a ton offered by the Provincial Government.

Work on School To Go Ahead.

The mass of the people of Prince Rupert will concur in the decision of the school board to go ahead with the erection of the new school building. It is difficult in a place this size to eliminate personalities in dealing with a local question. There are so many antagonisms and so little appreciation of local talent. We know each other too well.

If the work on the school starts now, the building should be complete or nearly so by the end of the year and the children will then have the advantage of more modern conditions in their education.

Season Late On the Prairies.

Prince Rupert is intensely interested in the Canadian prairies for it is from them that our food supply comes. We get our flour from the wheat grown in Alberta, Saskatchewan and Manitoba. The hard wheats of those provinces make the best flour in the world and here we like the best of everything.

The season is late on the prairies but that does not mean Simpson but the time for Prince the department of public works, it chains, to point of commencement. anything except that perhaps the acreage under wheat crop will Rupert varies only a few minutes is likely that an early start will be be less than usual. We shall have to eat oat cakes if there is a scarcity of wheat flour, and thatwould not be a hardship.

FISHERYMEN WILL VISIT

Secretary of Association Expect They Will Return by Way of Prince Rupert.

When the Canadian Fisheries Association holds its convention in Vancouver many of the members will visit Prince Rupert. They have been invited by the Prince Rupert Board of Trade, it was reported at the meeting the board last night and the following letter from F. W. Wallace secretary of the association, in regard to the matter is self explanatory:

"On behalf of the Canadian Fisheries Association I desire to thank you most heartily for your wire of April 10th reading as fol-

"The Prince Rupert Board of Trade cordially invite the members of your association to travel via Prince Rupert either to or from Vancouver when visiting this coast to hold convention Vancouver. If you will notify us when and number of persons who will come this way we will arrange to entertain them whilst in this city. We believe the many different branches of the industry which will be in operation at the time of your visit should greatly interest the members of your association.'

"Personally I am eager to have our delegates visit Prince Rupert on their return home and in the pulletins which we are sending! out to members regarding the convention we have made special; mention of the return trip via Prince Rupert.

"Your generous invitation will be published in our bulletins and in our official organ, 'The Canadian Fisherman.

"I have no doubt but that a number of our members who are not limited by time will return by way of Prince Rupert. It is the writer's intention to get as many o return this way as possible."

* MINING TRAILS ARE TO BE IMPROVED

Work to be Done on Recommendation of Engineer J. D. Galloway.

Considerable improvements are to be made to the mining trail skidegate, B. C., settler, intends to apply system of the district within the next few weeks, following favorable reports made on the situation during last summer by J. D. Galloway, the resident mining engineer, but what just will be done chains, to point of commencement. with other applications will depend largely upon the view Mr. Galloway takes of the matter. says the Interior News.
