GEO. ECKERMAN IS APPOINTED

Will Manage the Rupert Market For the Northern Interior Association.

George Eckerman, an old time merchant in this city, has been appointed manager of the Northern Interior Co-operative Association's market here and arrived from the south this morning to enter upon his new duties. Mr. Eckerman will have charge of the retail end of the business here while A. J. Prudhomme, general manager, will spend his time between here and Telkwa.

Mr. Eckerman was in the north for ten years until he went to Tacoma six months ago where he has been conducting a fish market. He was first in Lynch Bros. old store at the junction of Third and Second Ave. and from there went to manage their store at Smithers. From there he again came to Rupert where he was first in charge of the store at the Prince Rupert cannery and later of the Cold Storage Store.

The appointment of Mr. Eckerman to conduct the farmers' store will be a popular one and a decided asset to the market, as he is very popular and well known.

The Misses Grant, Groves, Shockley, Dalby, Thompson, McRae, Grieve, Shockley will appear with Mrs. Dalby Morkill in the Japanese dance at the Vaudeville.

PUBLIC NOTICE

Notice is hereby given to the citizens of Prince Rupert that His Worship the Mayor has named the week commencing May 10th, 1920, as "clean up" week. All citizens are respectfully requested to clean up their outside premises, back yards, etc., and deposit the rubbish which cannot be burned so that the same may be easily collected by the scavenging dept.

WATER NOTICE

DIVERSION AND USE.

TAKE NOTICE that The Taylor Engineering Co., Ltd., whose address is Credit Foncier Building, Hastings Street, Vancouver, B. C., will apply for a licence to take and use ten second feet of water out of Wolf Creek, also known as Davidson Creek, which flows southwesterly and drains into the Kitsault River, about two and a half miles north of the Dolly Varden Mine.

The water will be diverted from the stream at a point about one mile from the Kitsault River and will be used for power purpose upon the mine described as the Wolf Mineral Claim, and lights to Alice Arm District.

This notice was postel on the ground on the Third day of May, 1920.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objection to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The powers of this undertaking are to be exercised for power and lighting within the territory embracing all the Wolf mineral claims, the Dolly Varden mineral claims, and all of this Company's Railroad and properties and buildings, or any properties and buildings of others in and adjacent to the Alice Arm District.

THE TAYLOR ENGINEERING CO., LTD.,
Applicant.

SAVE YOUR SIGHT

EYESIGHT—The most valuable of all the senses — is the most neglected and the least understood. Many suffer from ills, which, upon examination, can be traced directly to defective eyesight.

THE removal of the cause will often restore the delicate and run-down sufferer to robust health. When glasses are properly prescribed, they restore the vision to normal and eliminate all eye strain.

REINDEER DRIVE IN ALASKAN TERRITORY

WASHINGTON, May 5.—Alaska's first big reindeer drive is to take place next summer when a herd of twenty-five hundered will be driven from the Kuskokwim Valley to Broad Pass where they will be close to the federal railroad for shipment of the surplus to the States. The United States Government owns fifteen hundred of these animals and the additional thousand are owned by natives.

Secretary of the Interior Payne says that he sees no good reason why these animals should not be grazed close to the railroad where they will be handy for shipment.

An appropriation of six thousand dollars is to be used in making the drive and maintaining the natives who will be required to look after the herds. The plan contemplates the development of a herd of six hundred thousand reindeer with an annual meat production of one hundred thousand pounds.

An Exchange with Advantage

When you purchase Birks' Diamonds you merely exchange one form of wealth for another—but it is an exchange which is all to your advantage.

First, you obtain 100% value, with an almost certain advance in price in the near future.

Second, you have the pleasure of owning and wearing a fine attractive gem — unfading and unchangeable through all time.

Third, your diamond will compare with any—it is the finest procurable.

IRON SMELTER IS DISCUSSED

Mr. Pattullo Suggests that All Possible Data be Assembled and Placed Before Minister of Mines.

At the meeting of the Board of Trade in their rooms last night there was a somewhat long and acromonious discussion on the possibility of developing the iron and coal deposits of Copper River district and the establishment of an iron and steel industry. In introducing the matter President Parker suggested that as their able representative, T. D. Pattullo, was present it might be well to take up with him any matttrs in which they were interested. The northern district had been well taken care of and the Prince Rupert appropriations were quite liberal. There were many matters, however, such as smelters and roads that might de discussed.

Iron Question.

A. C. Garde introduced the iron question. He mentioned that the report of Mr. Galloway had overlooked the coal fields at Copper River when reporting to the Minister of Mines. These were most promising and there was an excellent site for a blast furnace. Everything necessary for the establishment of blast furnaces was present.

Mr. Gayle emphasized that the bounty offered by the Provincial Government meant a great thing. It would amount to something like five million dollars in five years an they could not expect a government to do more than that.

A. M. Manson took exception to any reflection on Mr. Galloway, who was an eminent engineer.

J. B. Roerig suggested that all should get behind Mr. Garde who he felt would yet see a steel works established here as a fruition of his work. Mr. Garde had declared that the Salmon River was rich even when everyone was leaving the district. His judgment was proved correct.

Several others took part in the discussion which ended most harmoniously.

Assemble Data.

T. D. Pattullo urged that they should assemble all their data and place it before the Minister of Mines when he visited the district in June.

The matter was left to the mining committee.
