ASK DOMINION CONTINUE WORK

Would Give Employment to Returned Men in Shipyard.

OTTAWA, May 12.—Asking the Dominion Government to continue with a substantial shipbuilding program in order to give as much work as possible for men now employed in the various yards of the Dominion, a deputation of over 100 waited on Mr. George E. Foster and the cabinet yesterday.

MAKE INSPECTION FISH HATCHERIES

VANCOUVER, May 12.—J. A. Robb, Dominion superintendent of fish culture, has arrived here. For the next three weeks he will conduct an inspection of fish hatcheries along the coast.

Mining News

Big Tunnel in Alaska.
 Backed by eastern capital, work has started under the direction of W. S. Pekovitch on a thousand-foot tunnel at Funter, Alaska, where the Pekovitch interests have been developing for some time. J. D. Williams, a Seattle mining engineer, has been at the property several weeks outlining the work. Pekovitch was in Seattle in February on his return from the east and ordered machinery and supplies for the Funter property. He purchased at Seattle some very modern mining machinery.

Granby Mines Issue.
 An issue of \$2,500,000 of the Granby Consolidated Mining, Smelting and Power Co. is being offered in New York. The bonds are for five years and interest at 8 per cent, and being offered at par give the investor a yield of 8 per cent. The Granby owns copper ore reserves estimated at over 22,000,000 tons, also smelting plants having a capacity of 3,000,000 pounds of copper per month, making it the largest copper producer in Canada.—Financial Post.

Ketchikan to Anxoy.
 Over two thousand tons of ore was shipped from the Rush and Brown mine near Kassan, Ketchikan district, last month, according to advices from Ketchikan and Seattle. The property is working steadily and has a substantial payroll. The mine has been in operation for years and although the ore is low grade it was rich enough and in sufficient quantity to warrant its operation when many other properties were forced to suspend on account of high costs. Judge Rush, or Kassan, is sole owner of the property.

Promise for Atlin.
 Jules M. Ruffner, a well known mining man of Atlin, who passed through here a few weeks ago on his return to Atlin, stated that everything pointed to that district developing into one of the best camps of the north. Mr. Ruffner, who has considerable interest in those parts, said that development work would be started on some of his mines at once and the best sorting ore would be shipped out. Just as soon as sufficient development work is done to warrant it, Mr. Ruffner states that a concentrating plant will be installed at the Malloy group. Roads have always been a drawback at Atlin but with the government taking this matter up and conditions becoming more settled it is thought that Atlin may once again develop into a big silver-lead camp.

Looking for Oil.
 In an address delivered before the Kiwanis Club at Edmonton last week, A. E. Halverston, a well known authority, expressed the opinion that present oil sources were petering out and that before long the big companies would have to be looking to other fields and particularly in the northwest. The fields of northern Alberta and the Peace River are drawing attention at the present time and development work is surely, if quietly, going on at the Queen Charlotte Islands. These large companies are watching and when something materializes in one of the new fields they will rush to them with all their wealth and organization.

Sport Briefs

The boys who are behind the Prince George Athletic Association are a live bunch of hustlers. A splendid athletic park is being prepared and the work is being largely done by voluntary labor. The city has promised a grant of \$250 towards getting the grounds in shape and the park is to be used for all athletic fixtures and in afternoons will be free for school children. The Athletic Association is to be formed with a capitalization of \$25,000 and the executive proposes forming two baseball and two football teams. The association is also trying to secure a suitable site for curling next winter.

Vanderhoof is also busy, the citizens being fully aware of the fact that a town of the importance of Vanderhoof should make a showing when all the other communities in the north are more enthusiastic about sport than they ever were before. Last week the work of organization was commenced when a meeting with a goodly attendance of players and fans gathered. Warren Johnson was elected manager, H. V. Goodwin, captain, and Lemuel Hay, assistant, of a baseball team. Hugh C. Wilson is secretary, George J. Watt, subscription solicitor; F. Eaton, grounds manager, and "Buck" Embley, mascot.

Coming further west organization has also commenced at Burns Lake. It has been decided to get Patell Park into shape and a baseball diamond and tennis court will be marked out. A big celebration is to be held there on Dominion Day with a full program of sports and a baseball game will be played with Ootsa Lake. The following are the officers of the Burns Lake Athletic Association: Honorary president, A. M. Manson; president, Miles Henderson; vice-president, Dr. E. J. Gilray; secretary-treasurer, G. S. Wood; executive committee, Rev. A. Garlick, A. M. Ruddy, L. Mulvaney, R. C. McDonald, and F. M. Nourse.

Sports certainly are booming in the north this season. Never before have there been so many communities getting down to active organization work and certainly there have never been such prospects. It was announced some time ago that a league had been formed in the north consisting of Stewart, Alice Arm and Hyder. The next thing will be a league up river and this will, no doubt, be formed before many weeks have passed and it will excel any that has ever existed before. Among the towns having clubs this year are Terrace, Hazelton, Smithers, Telkwa, Burns

ZAM-BUK MAMA!

Mothers who have used Zam-Buk say it is so fine for the many little accidents of daily occurrence in the home—and especially where there are children—that they would not be without it. Not only so but children who have had Zam-Buk applied to an injury or sore, when again injured, cry for Zam-Buk to be applied. They know that Zam-Buk stops pain. Nothing ends the pain of a cut, bruise, burn, or skin disease like Zam-Buk, and nothing soothes, draws out the soreness and heals so quickly.
 Mrs. I. Wilson of Sarnia, Ont., says: "I could not do without Zam-Buk for my children. It is the best ointment we have ever used for burns, sores and cuts."
 Mr. L. B. Anderson of 1407 E. 22nd St., Minneapolis, Minn., writes: "When any of the children, my wife or self meet with an accident, we immediately apply Zam-Buk. It has saved us many a doctor's bill."
 Mrs. C. B. Ritcey of Riverport, N.S., writes: "My baby had sores on her face, caused by teething. Zam-Buk completely healed them."
 Zam-Buk is equally good for eczema, ringworm, itching sores, blood-poison, scabies, abscesses, piles, boils and pimples. All druggists, 50c. box, or Zam-Buk Co., Toronto. Send 1c. stamp for free trial.

Lake, Vanderhoof and Prince George. By a process of elimination, there ought to be some good competition for the Ruperters, who still think they've got anything in northern B. C. outclassed. Baseballers ought to travel some this season.
