"I Want the Best"

Most people recognize that it is best to get the best. Whatever we may purchase, if it is the best of its kind it gives the greatest pleasure, the longest service, the largest amount of satisfaction. And this applies particularly to diamonds.

Birks' Diamonds are of matchless, never-falling brilliancy, incomparable in color-play. People who discriminate between medium and high quality recognise their superiority instantly.

be as nothing to the future. Those who are in a position to speak with authority are even more optimistic than those who are not conversant with mining matters.

Our Sitka Spruce.

Why are we likely to prosper? Because we have Sitka spruce, effect with their variety of colors. A contingent of scarlet riders of the plains, all over six feet three inches in height, and mounted constables in blue and white led the procession.

Following these came Prince Rupert and eight mounted cavaliers of 1670 in rich, gold, brocaded robes, Indians on horseback and 1674 period traders and packers carrying picks. A huge prairie schooner bearing original pioneers, one of whom was 96 years of age, Sir Robert Kindersley, K.C.B., and party, Mayor Gale, the aldermen, war veterans of the old Imperial Guards, Kenian Raids and the Great War, and representatives of women's, Chinese, Japanese and Negro societies formed a feature.

This evening several entertaining features have been arranged. About 8 o'clock the Vancouver fire brigade auto trucks gaily illumined with red and green lights will make a dash down Georgia Street to the park entrance. At English Bay a splendid pyrotechnical display will be staged from scows. On Hornby Street between Robson and Georgia, the pavement will be converted for the time being into an open air dance floor and two bands of forty pieces will provide the music. There will also be a reception and ball at the Arena on a strictly invitation plan.

Follow the crowd to Terrace on May 24. Return fare, $3.25. Train leaves 7.30 a.m. 119

CONFIDENCE IN FUTURE

(Continued From Page One

It is a timber that is daily becoming more popular. Readers of this paper will remember noting only yesterday that an order came this way, because of the quality of the goods.

Mills are running steadily throughout the district and there seems no good reason to believe that the industry will not be continuously prosperous.

The Great Interior.

Of the great interior it is impossible to speak at any length here. For years there was scarcely any general movement toward settlement, following the first boom along the line of the G. T. P. Today everything is changing. Settlers are flocking in and Prince Rupert, being the natural outlet to the sea, will gain much from the fact.

We need say little of our tourist advantages. These will have to be advertised to become known, but already tourists are recognizing the scenic value of this route. What more do we need?

TRAINS WERE HELD NEAR WILLOW RIVER

Coast Passengers Had Dull Time During Their Forty-eight-Hour Stay—Fished in Ditches.

The train due Sunday arrived in town last evening at 10 o'clock after being stalled at Giscome for two days on account of a nasty mudslide near Willaw River, a few miles to the east of Prince George. The track is covered with many feet of yellow, oozy mud, which brought down trees and stumps along with it. The railroad track men have had a strenuous time to get the line clear and had to build a "shoefly" or temporary track around the slide, as the mud kept coming down as fast as the ditcher could dig it away. There was little for the passengers to do at Giscome during their two days stay there. The creeks were overflowing with the melting snows and there was some fun fishing in the deep ditches alongside the tracks.

On account of the steamer situation, the Vancouver passengers were sent south from Lucerne over the C. N. R. line. After forty-eight hours delay, the train started forward and crept around the slide very slowly and carefully and got safely into Prince George after midnight. Any further trouble on the road had been overcome and good time was made on the trip in. The train due last night followed closely, arriving this morning early.

STEAMER LAUNCHED

VANCOUVER, May 19.—The steel steamer Margaret Coughlan was successfully launched here yesterday afternoon. The boat which is of 8,800 tons will operate out of Vancouver.

NOTICE

We wish to advise that we have sold out the Georgetown Saw Mill Co., Ltd., wharf to LePine & Wright., Ltd., who will in future conduct a wholesale and retail lumber business.
