Many Locating at Terrace Where They Will Grow Berries and Vegetables.

With the general inrush of new settlers to the Terrace district there has been a great demand for boftom land and with the subdivision of R. Braun's holdings formerly known as Braun's Island, a number of new families have taken acreage there. For the most part the island is heavily wooded but this does not retard the enthusiastic land breakers. Rapidly the trees are being cut down and wherever a clear spot appears there strawberries and vegetables are being planted. Only last week a forest fire spread terror into the hearts of the pioneers on the island but the wind fortunately turned the blaze in an opposite direction to the present location of the shacks. The new area has now been named Kitsumvilla by the recent arrivals.

Besides the old timers, Mr. and Mrs. Braun, R. Heppell and D. Claher, Mr. and Mrs. F. Bishop and Mr. and Mrs. R. L. Stapleton have arrived from the east and are delighted with the British Columbia climate and fine alluvial soil. Mr. and Mrs. L. Referees Put Right

When the Prince Rupert Amateur Football Association showed. its hand on Tuesday night and promised its support to referees handling games it, indeed, took a wise step and one that would be followed with advantage by other athletic organizations in this city. "Crabbing the referee" is a practice that has been too common in the sports field in Prince Rupert and the sooner it is stepped on the better. When a man is sent. into the field to referee a game he goes in with the support of the organization and it is nothing but insolence for an individual player to dispute with him. If a player is not satisfied with the adjudication he may always take! his grievances to the association and he may be sure that he will receive fair play. Showing his temper on the field is indiscreet. and only shows his lack of sportsmanship.
