To Make a Tart Salad Jell

Jiffy-Jell is for salads as well as desserts. Get the lime-fruit flavor and it will make you a tart, green salad jell. Mint flavor makes a mint jell.

The fruit flavors in Jiffy-Jell are fruit-juice essences in vials—a bottle in each package. They are real fruit, and the flavor is abundant. No artificial flavors—no saccharine.

Try loganberry or pineapple flavor for a dessert, and learn what delicious dainties Jiffy-Jell brings to your table. A package will serve six people.

Jiffy-Jell with its natural fruit flavor costs much less than jam or marmalade.

BAPTISTS MAKE GOOD PROGRESS

Paying Off Debts Incurred in Dark Days; Mortgage Being Reduced

A report in regard to the financial condition of the local Baptist Church was given at a recent meeting of the finance committee. This shows that the church has assumed as a debt of honor all local debts, although not incurred by the present church. Of the money collected for the Forward Movement two-thirds will be used in liquidating these debts incurred during the dark days.

In view of the denominational census for 1920 the church roll has been so revised that the membership is now probably the smallest in the history of the institution having only forty-five members. This has increased the church's efficiency. The services are better attended and in the quarter beginning the last week of March these few members, apart from the Board's contribution to the mortgage of $1,500, will have disbursed locally, $1,255. The finance committee is of opinion that if the church can maintain its courage, toil and generous giving, it will be in the happy position of being free from debt within a year.

The executive board of the Western Convention has very generously and courageously become responsible for the mortgage of $7,000 on the local church. It has done this because it believes in the future of Prince Rupert and in the permanent work of the church. A few days ago it contributed $500 and hopes to send another for the immediate reduction of the mortgage.

The Big Profits are in Contented Cows

Cows, notwithstanding the layman's ideas to the contrary, are really highly nervous and sensitive animals, as all farmers know. Flies pester them and make them nervous and ill-tempered. This affects the milk and the milk supply and so decreases profits. Calves and heifers can't attain their proper weight, strength and vitality when worried by flies. Flies carry contagion and are in every way undesirable. Be humane—be comfortable and make your cows contented by using Pratt's Fly Chaser. It is easy to use and never fails.
