**Work on Dock  
Is to be Rushed.**

The contractor is on the ground making arrangements for the commencing of work on the G. T. P. dock. The structure is to be large and substantial and will serve to relieve the present congestion.

There will be a large quantity of filling needed for the dock. Some of it will probably come from the Metlakatla bar but, unless it is dredged to a considerable width, there will not be enough material secured from that source. All will wish to see this work go ahead.

**Work of Local  
Teacher Appreciated.**

It is always difficult to single out from a group of hard working and efficient people one that is in some respects more prominent than the others. That is the case among the local school teachers, all of whom seem to have done excellent work during the year. It is timely, however, to draw special attention to the excellent service of Miss Mills in encouraging local games and sports, especially among the boys. Her work is unique. She takes a keen personal interest in every pupil at the school and her influence is such that the clean sport has reached such a stage of efficiency as it has never before reached here among the young people. We are not suggesting that Miss Mills' influence is the only one working along this line, but it is a fact that it is very powerful.

We look on the play feature of the school course as just as important as that of study. Boys and girls who learn to play well have received a large part of their training for the contests of later life. Unfortunately here we are somewhat handicapped in this matter, on account of the difficulty of securing proper grounds, but in spite of this, there is great activity among the boys and girls, an impetus toward which is the generally cool weather which obtains here.

That the work of Miss Mills in teaching the pupils to make the most of their play opportunities, is appreciated by the pupils themselves is shown in the recent presentation made to her by them. We take great pleasure in voicing the sentiment of a large part of the community in expressing to Miss Mills appreciation of the public of the splendid work she is doing in the city.

**Longshoremen's Strike  
Becomes Interesting.**

The strike of longshoremen is being taken up by the business men and it is possible there may be some developments in the near future. The News has given the men's side of the controversy and also that of the company. Last night a group of local business men wired Mr. Hinton asking for arbitration. Possibly by ventilating the cause of dispute thoroughly, some way out may be found which will satisfy both parties. Much inconvenience is being caused locally by the tying up of traffic and the strikers themselves are losing money as well as the company.

**VANCOUVER  
DEFEATS ALL  
MONEY BYLAWS**

School and Hospital Expenditures  
Refused—Very Few  
Voted.

VANCOUVER, June 21.—All laws to authorize the expenditure of the building of a million and a half dollar school, to add to the hospital and for other expenditures were defeated on Saturday. Only ten per cent of the ratepayers voted and there was a two-thirds majority against.

**RECORDS BOUND FOR  
SKEENA JAPANESE  
STOLEN IN VANCOUVER**

VANCOUVER, June 21.—Two hundred and thirty-five Japanese gramophone records intended for shipment to the Skeena river canneries for the enjoyment of the Japanese fishermen there, were stolen from the rear of 230 Powell street, according to a report made at police headquarters by Kato, Japanese living at 316 Powell street.

He stated that he had left the records for a few minutes while he was engaging an express wagon to take them to the north-bound steamer, and on his return they were gone.

**Ten Years Ago  
in Prince Rupert**

Steamer Coquitlam which left yesterday afternoon for Stewart with several passengers ran ashore on Digby Island at half past three and had to remain there until midnight, when she was floated by the incoming tide. The passengers had a jolly time on the island and the Coquitlam resumed her voyage to Stewart apparently not much damaged.

D. W. Morrissey who has been wharfinger at the G. T. P. leaves on Friday for Stewart where he will take charge of the stores and plant of the Westholme Lumber Co., who have the contract for building the McKenzie & Mann railway.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

**The Man in the Moon  
SAYS:-**

THAT while the luxury tax is being revised, it might be well to consider putting a pretty heavy duty on gourmets.

THAT any person who tells his troubles to a married man should be taboo in decent society.

THAT newspaper poets should be executed summarily.

THAT when a man grumbles at the cook, it is a sign he should live out of doors more and patronize the cook less.

THAT in the States a priest refused to marry a woman who was immodestly attired and at another place a judge said women who asked for divorces in his court would have to wear more clothes.

THAT a suitable subject for debate is: Do men worry because they are ill or become ill because they worry?

THAT an orator once said the Liberal-Conservative party was like a mule in that it had neither pride of ancestry nor hope for posterity.
