After several hours of rather strenuous manoeuvering, she was rescued from her precarious position by locomotive No. 6.

EYESIGHT—The most valuable of all the senses—is the most neglected and the most misunderstood. Many suffer from ills, which, upon examination, can be traced directly to defective eyesight.

THE removal of the cause will often restore the delicate and run-down sufferer to robust health. When glasses are properly prescribed, they restore the vision to normal and eliminate all eye strain.
