Values How many know values? How many values there are, when you come to think of it! The value of simplicity, the value of courage, the value of cheerfulness, the value of merchandise, the value of the things you do every day, the value of the things you use.

Few know so well the values of the practical things of every day use and wear as mothers do. They learn from experience the wearing value and the price value because they are the family buyers.

Mr. and Mrs. Kenneth Lord, of New York who came north on the Spokane yesterday intending to make the trip to Alaska, were so impressed with the scenery that they decided to change their plans and left for the east over the G. BRITISH INVENTIONS MAY SURPRISE ENEMY

London, July 23.—The appointment of an invention board of scientific men, with Lord Fisher, recently first secretary of the lord of the admiralty, as its head, to assist the British navy, was largely the result of the suggestion made by Lord Bryce, formerly ambassador to the United States, to the House of Lords, and following upon a discussion on which similar proposals were made by Sir William Ramsay and other eminent scientists.

The admiralty received 16,000 offers of new scientific devices during the first five months of the war. The board undertook to sort the wheat from the chaff; to eliminate the "crank" proposals, and to reduce to 25 the number which, in the board's estimation, were worthy of any attention. Another board has scrutinized these 25 more rigidly and reduced them to just two. These two are being worked out with every precaution of secrecy.

Elaborate trials have been made of one of these devices in English waters and in actual service in the Dardanelles. Rigid secrecy has been observed as to the details, but it can be said that the trials give promise of rendering a battleship immune from the submarine torpedo.

No submarining for eight days—Von Tirpitz must be planning something more "fearful."

MAJESTIC THEATRE

The Majestic Theatre tonight and Monday presents a three-reel Vitagraph comedy entitled "Goodness Gracious." The management describes this piece as 3,000 feet of roaring comedy. "Two Brothers and a Girl" is a very pleasing little drama, while "Sue" is a strikingly dramatic one-act play. This program is a blend of laughter and thrills which should please everybody.

There is no alum in Dr. Price's Cream Baking Powder. The names of its ingredients, printed on the label of every can, show it to be made from Cream of Tartar, which comes from grapes.

No alum baking powder or food containing alum is permitted to be sold in many countries. To avoid alum read the label and use only baking powder made from cream of tartar.
