MACHINE GUN

An account has been opened at the Canadian Bank of Commerce for subscriptions towards a machine gun for Prince Rupert's third contingent. The following sums have already been donated:— R. L. McIntosh, \$50; L. M. De Gex, \$50. There will be no canvass for this fund, but subscriptions will be welcomed, from all who are able to contribute. The gentlemen in charge of the list feel that it would be very appropriate if the announcement could be made on August 4th, the anniversary of the war, that Prince Rupert has been able to purchase a machine gun. The subscriptions will be published daily.

HEDLEY PRESENTS THREE MACHINE GUNS

Manager William Godfrey, of the Bank of B. N. A., this morning received a despatch from the manager of the Hedley branch announcing that the miners in the vicinity and the citizens of Hedley have raised \$3,000 for three machine guns and also \$800 for the Red Cross Fund. ROLL UP

Every little town and every city in British Columbia is doing splendid work in providing machine guns for the Canadian contingents. Such a movement has just been started in Prince Rupert, and, as in other lines of patriotic work, this city will not lag behind. It is not the privilege of every man to shoulder a rifle for his King and country, but it is the privilege and duty of those who are obliged to remain behind to help in every way possible the men who are so bravely taking their places on the firing line. Machine gun equipment is urgently needed, and it is up to Prince Rupert to help supply that need. The list is at the Bank of Commerce. Roll up.

THE PURGING PROCESS IN THE CONSERVATIVE PARTY

H. F. GADSBY DEALS WITH THE MANITOBA ENQUIRY—SUGGESTS THAT SUCH AN INQUIRY IN BRITISH COLUMBIA WOULD DISCLOSE SOME EXTREMELY INTERESTING FACTS

Ottawa, July 25.—Much interest is expressed here in the efforts of the Conservative party in Manitoba to purge itself of the Roblin crowd. The parliamentary branch of the Conservative party, all over Canada, has had to do a lot of purging lately. Methods have differed, but the results have been about the same—the grand old party is in a bad way yet, seal brown taste, fur on its tongue, specks before the eyes and other symptoms of torpid liver.

At Ottawa Premier Borden purged the party by kicking Garland and Foster out, which was good medicine as far as it went, although Bob Rogers stated his opinion that a general election was needed to complete the cure. He changed his mind, however, when the Roblin "Real Estate government" started to purge itself of its records resigning, not willingly you may be sure, but under compulsion from the lieutenant-governor, who held the bitter cup of a graft inquiry to its lips. That was the way they did it in Manitoba. In British Columbia they have another plan—coalition government, which would head the other fellow off by making him an accomplice after the fact. There is no doubt that a Royal Commission of Inquiry, which would deal with the purchase of submarines by Sir Richard McBride, the railway subsidies granted to the Vancouver, Victoria and Eastern and the alienation of crown lands to specula-

tors, would open up a lot of interesting facts.

Meanwhile, the Manitoba disclosures hold the centre of the stage. With two commissions going on at the same time, it has been a matter of some difficulty to keep track of the evidence. It (Continued on Page Two)
