REGIMENTAL FOOTBALL SMOKER LAST NIGHT

Members of the other city football clubs were present and songs, musical numbers and speeches were given. The meeting closed with "God Save the King" and cheers for the Regiment.

ELSIE JANIS AT THE MAJESTIC THEATRE

"The Caprices of Kitty" at the Majestic furnishes five reels of good fun. Elsie Janis as a happy-go-lucky school girl is delightful. Her every movement is eloquent of the mischievous "tomboy." She leads her chaperon an awful life, and generally tumbles into and out of trouble in the breeziest way imaginable.

She falls in love in just the same way in which she tumbles into most other things. The piece is rich in humorous situations and is calculated to make anybody laugh. A Pathe Gazette, showing the latest happenings, completes a most enjoyable program.

MINING PROSPECTS ON LEGATE CREEK

Legate Creek, situated about a mile west of Pacific on the G. T. P., is showing up well in minerals. A. Halliday and T. Littlefair are at present working on a good shoot of ore, showing high grade galena with particles of native silver, and running about one oz. in gold to the ton. This ledge is a contact between granite and white lime and averages three feet in width for a distance of between two and three thousand feet. The strike runs about east and west, dipping about 85 degrees into the mountain, and apparently of considerable volume.

Halliday and Littlefair are also at work on a very promising copper property, samples from which have assayed from two to twenty-six dollars in gold. This ledge is in line with a porphyry foot wall, and has the earmarks of a big producer.

Karl Whitmore and Mack Orr recently made an exceptionally promising strike on Mineral mountain, opposite Legate mountain, on which the Halliday-Littlefair claims are located, and in the same mineral zone. Their M. and K. property is copper glance and galena, the average width of this vein being eight feet, and the lead is traceable for about three thousand feet. This ore assays \$224 to the ton as follows: Gold, .04; silver, 108 oz.; copper, 40.5; lead, 17.08. This to all appearances is a new ore in this part of the country. Whitmore and Orr are also at work on their O. and W. property which is bornite and chalcopryite, and also of considerable extent, averaging \$130 per ton on assay and running as high as 33 per cent. in copper. They have some ore now ready to ship and are awaiting the completion of a trail to get it out to the smelter.

The boys hope to have a good display of ore at the Prince Rupert Fair, but same can be seen by any interested at the office of Mr. McCubbin, deputy recorder at Pacific, along with other ore samples from properties in the district.

ER HAZELTON PROPERTY LEASED

Another mining property is added to the working list by the leasing of the Barber and Barber Bill claims on Nine Mile, to Lofquist, Brewer and Anderson. The property will be opened up without delay, and the operators hope to make considerable shipments of silver-lead ore in the near future. The owners are W. H. Burken and Edgar Harris.—Omineca Miner.

BALKANS ARE STILL COY

Map shows the boundaries of the Balkan States and their relation to the Dardanelles. Bulgaria is said to have received territorial concession from Turkey, but Bulgaria does not touch Austria. Roumania is standing firm and not allowing munitions to be transported. Greece is anxious lest the other two get advantages.

PRINCESS MARY WAS HELD AS SPY

New York, August 11.—A London cable to the Tribune says:

"A member of the British royal family, thanks to the efficient espionage net of the allies at the front, has been arrested, charged with being a German spy. For four hours Princess Mary was held under guard, while officers sympathetic but skeptical, investigated her claims to royal privileges.

"Having gone on an incognito visit to the hospitals at the front, Princess Mary, accompanied by Mlle. Dussau, started to meet her brother, the Prince of Wales, at the British headquarters. When about six miles from the village where the staff was located, her car was halted by a French patrol. Unluckily, the occupants had forgotten their passports and permission papers, nor did the patrol recognize royalty in the name of Lady Chester, which Princess Mary gave.

"Leaving the car, with its occupants under guard of two French soldiers, and with the assurance that they would be shot at six o'clock in the evening, the corporal went in search of the officer in command of the outpost. Not until four hours later did the officer return. The identity of the prisoners was then established by messages to the British headquarters, which was on the point of issuing a general alarm for the missing princess."

FAMOUS PIANIST HAS BEEN DEPORTED

London, August 11.—Maria Cecilia Natalie Janotha, court pianist to Emperor William, was arrested in London today and deported from Tillbury.

Maria Janotha holds membership in many academies of art in Italy, Great Britain and Austria. She received the Victoria badge from Queen Victoria and holds the highest honorary diploma from the St. Cecilia Royal Academy in Rome. She edited Lady Tennyson's songs and translated Chopin's greater works. She was the recipient of many decorations including one from the German empress.

During the evening Mr. Chalmers was presented with a pair of binoculars by James Smith, on behalf of those who had served with Mr. Chalmers. Mr. Chalmers suitably replied.

GABY DESLYS AT THE WESTHOLME THEATRE

The big attraction at the Westholme is the world-famous Gaby Deslys in a five-act drama entitled "Her Triumph." Gaby is shown as a humble chorus girl working hard to support her mother and a blind sister. Given an opportunity to play the leading role at a moment's notice, she captivates her audience and dances her way into fame. The screen depicts most clearly the lively little dancer in several of her famous dances. The dancing is not the only attraction, as Gaby shows wonderful ability as an actress.

The program opens with a fine Hearst-Selig Gazette and concludes with a laughable western comedy entitled "Algie's Sister," who, by the way, is a boy.
