HAD JUST OPENED

GIRL'S WINDPIPE

London, August 24.—During one of the recent German air raids on the east coast a well-known surgeon was performing the operation of tracheotomy on a girl at a nursing home. It was night, and the municipal electric service was at once suspended. All lights went out at the very moment when the surgeon was opening the girl's windpipe.

Fortunately, it was not the first attack delivered against this place. Taught by experience, the operator had made it a matter of habit to warn his nurses and his assistants that lamps should be kept ready for use at all operations at night. The precaution saved the little patient's life. With but a trifling delay the operation was completed and the girl is doing well.

SHIPMASTERS DISCUSS SHIPPING LAW EVASION

Captain J. Mulligan presided over a well attended meeting of the Prince Rupert branch of the Vancouver Shipmasters and Officers Association last night. After the usual business had been disposed of, the question of boats of five tons and over being allowed to operate out of this port without being in charge of certified men was brought up.

The secretary read the correspondence which had passed between himself and the Collector of the port, and, after due debate, he was instructed to write to the collector once more, on behalf of the association, pointing out that no definite steps had been taken by him to see that the law governing these boats had been complied with. In the event of an unsatisfactory or no reply being received to this letter, the matter will be laid before the Inspector of Steamships at Ottawa.

COMEDY AND DRAMA AT WESTHOLME THEATRE

The Westholme has a real good show tonight, including a thrilling two-part Vitaphone drama entitled "The Girl in the Case," featuring Maurice Costello, one of the most popular actors of filmdom. "THE BROKEN COIN" POPULAR AS EVER

"The Broken Coin" drew crowded houses at the Majestic again last night. The story retains its grip on an audience all the way through, and every new development adds to the interest. Besides providing thrills the piece is beautifully staged, while the acting of Grace Cunard is delightfully breezy.

The Animated Weekly is up to date and interesting and shows some very clever work by a famous cartoonist. "For Love or Money" is the fun producer, while "As We Journey Through Life" is a pleasing dramatic novelty.

NINETY THE BEST OFFER FOR CITY DEBENTURES

Terry, Briggs & Slayton, of Toledo, Ohio, have offered to take up the debentures covering the redecking and roadway construction to Seal Cove at 90 cents on the dollar.

On the offer being placed before the council last night, Ald. Montgomery said he thought it was too low.

The mayor said it was the best offer received.

Ald. Dybbavn thought the offer was fairly reasonable considering financial conditions, and emphasized the fact that the only alternative was to do the work out of general fund.

Ald. Montgomery said he believed the lumber for the work was paid for, and, that part of the journey being over, he thought the offer of certain citizens to do the work and take debentures at par as payment should be considered.

The mayor said the citizens' offer did not cover the cold storage roadway. Ald. Dybbavn said it would be impossible to estimate the work to be done in connection with redecking.

On the motion of Ald. Montgomery, seconded by Ald. Casey, the matter was left over for a week.

HARVESTERS

At the council last night, Ald. Dybbavn asked if anything more had been done regarding the sending of harvesters from here to the prairie. The mayor said that, on learning that men were going east from Vancouver, he took the matter up with the Alberta and Saskatchewan governments. Saskatchewan had not yet replied, but Alberta said they had plenty of men.
