NEW GERMAN SHRAPNEL WHICH BURNS FATALLY

London, Sept. 1.—The correspondent of the Morning Post at Petrograd telegraphs:

"A new application is reported of the German invention I have previously mentioned. It serves to show how Germany develops the scientific side of her efforts as the war proceeds.

"The incendiary fire bombs, which contain some composition producing sufficient heat to start flames in anything that will burn, are now familiar. The Germans have invented a method of using something similar in the form of or combined with shrapnel.

"Reports say any man struck by shrapnel from these things is terribly burned, the burns often proving fatal, even when only a limb is struck. Presumably phosphorus enters into the composition of this new weapon, as also do certain poisonous bullets."

Now that an exceedingly good crop is assured, the demand for binders, threshing outfits, binder twine, etc., is very heavy and the implement company have a big problem on their hands.

How Brown Learned How.

There is a man who makes shoes for children—and sells them to stores all over Canada But he is only just learning how people buy.

It was this way: His wife—let us call her Mrs. Brown—phoned to him and asked him to buy some underwear for little Brown.

Picture Brown now among the throng of mothers at the "Children's Underwear" counter. He asks for Underwear for a child of six. He looks it over helplessly. What on earth does he know about Children's Underwear? For lack of anything better to say he asks: "Is this good quality?" The answer is short and quite conclusive: "It's Blank's"—naming a well-advertised line. That short word says everything. Brown pays his money and goes home, quite satisfied with his purchase.

Now what bothers Brown—a manufacturer of shoes, is this: How would it affect the purchase of a child's shoes if the salesman said "They're Brown's"?

Nobody knows Brown's shoes. Brown doesn't advertise.

The name Brown signifies nothing when used in connection with children's shoes. The salesman must use all his persuasive wiles to induce people to buy them.

The point is—If the name Brown was as synonymous with Children's Shoes as "Blank's" is with Underwear, wouldn't Brown sell more shoes with less effort?
