### BELLA COOLA NOTES

Percy Gadsden and C. Charlton  
have just returned from an ex-  
pedition up the Kimsquit River.  
They traversed the valley a dis-  
tance of about twenty-four miles  
for the purpose of locating a  
trail to some agricultural lands  
along this river. What seemed  
to impress them the most on the

trip was the large number of  
seals seen at the head of the in-  
let and even for some distance  
up the river. The salmon was  
conspicuous by their almost en-  
tire absence.

A very pleasant party, arranged  
by the cannery boys, took place  
at the hotel on Thursday of last  
week. A number of the younger  
members of the community spent  
the evening agreeably in playing  
games and displaying their skill  
in different contests.

Albert Hammer, the energetic  
secretary of the local Farmers'  
Institute, urges upon the farmers  
to get their exhibits for the  
Prince Rupert Fair ready in time  
for shipment on the 16th inst.  
In the meantime he will be busy  
canvassing the farmers for ex-  
hibits.—Bella Coola Courier.

## The Housekeeper is Right

Sometimes a housekeeper requires a quick leaven-  
ing agent, and finds she has no baking powder.

What does she do?

She raises her biscuit by a mixture of cream of tartar and  
soda, or soda and sour milk. She may not get the propor-  
tions quite right, but she knows her food is safe. But does  
she ever use a mixture of alum and soda? Was there ever  
a housekeeper who bought alum and soda to make a home  
made baking powder? Intuitively she feels it would be  
unsafe.

Then why use baking powder made from alum or the  
same mixture that the housekeeper would not dare to mix  
and use in her food?

Alum is alum, whether bought in the drug store or in  
baking powder.

## DR. PRICE'S CREAM BAKING POWDER

is made from pure cream of tartar and contains no alum,  
lime or phosphate. There is absolute safety in its use.
