HAZELTON NOTES

Dean John P. Sargent arrived from Qu'Appelle on Wednesday. He will spend the winter with his son, R. S. Sargent.

The Sunrise people have every reason to be satisfied with the smelter returns for the first car of ore shipped from the property, the value being \$90 a ton. Another car is now on the way to Trail.

For breaking a lock and illegally taking the ferry scow across the river, John Lee was sentenced to thirty days in jail. Hubert Cassidy, who was with him, was

allowed to go on suspended sentence.

Jack Frost, who is stretcher-bearer in the famous 16th Battalion, is the latest Hazelton man to figure in the list of wounded. His injuries are not serious. "Spot" Middleton has recovered from his wounds, and is with the battalion.—Omineca Miner.

The Housekeeper is Right

Sometimes a housekeeper requires a quick leavening agent, and finds she has no baking powder.

What does she do?

She raises her biscuit by a mixture of cream of tartar and soda, or soda and sour milk. She may not get the proportions quite right, but she knows her food is safe. But does she ever use a mixture of alum and soda? Was there ever a housekeeper who bought alum and soda to make a home made baking powder? Intuitively she feels it would be unsafe.

Then why use baking powder made from alum or the same mixture that the housekeeper would not dare to mix and use in her food?

Alum is alum, whether bought in the drug store or in baking powder.

DR. PRICE'S CREAM BAKING POWDER

is made from pure cream of tartar and contains no alum, lime or phosphate. There is absolute safety in its use.
