CANADIAN ARCTIC TERRITORY GROWING

Quebec, Oct. 4.—Capt. Joseph Bernier, the Canadian Arctic explorer, has reached port on his vessel, the Guide, after a successful trip to the new land he discovered in the north, known as Baffin Island, and which in 1916 will be recognized as a Canadian possession. This newly-discovered land, which is located in the Arctic Archipelago, about 2,500 miles from Quebec, comprises 500,000 square miles of territory, as extensive as France and Italy combined. The only casualty reported by Captain Bernier was the loss of one of his crew, a German, who, while taking photos of the islands, wandered too far away from the Eskimo settlement and was lost. His frozen body was found 30 days later 150 miles from the station, by a search party sent out by Captain Bernier.

LAW OF GOOD FAITH MUST RULE THE WORLD

"I have little confidence in, although much sympathy with, all the schemes that are on foot for promoting peace, but it is no use crying peace when there is no peace and no possibility of peace—no possibility of peace until the authors of this awful war are brought to a condition where their adversaries and the whole world can see that hereafter they will obey the rule of good faith, the rule of keeping contracts, the rule that when they make a treaty they shall stand by it whether it is to their interest or not."—Hon. J. H. Choate at Toronto University Convocation.

THE HUN WAY

A telegram from Bale to the Petit Parisien says that a Mulhouse woman, Anna Schesser has been courtmartialled by the Germans for saying the French had been twice through Mulhouse and had touched nothing in her house, whereas the Germans on their visit carried off everything of value and ill-treated the people. The courtmartial sentenced her to three months' imprisonment.—Weekly Mail.

THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 803 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
