COPPER REFINERY

Following the munitions discussion at the Board of Trade meeting yesterday, A. C. Garde, mining engineer, pointed out that there are many lines besides shell making which might be taken up here. He referred to the question of a copper refinery for this point. He felt that, since Ottawa had not replied to the sending of the mineral resources report, the report should be published.

It seemed clear that Prince Rupert is to be left out in the cold entirely, while the provincial and Dominion governments render assistance to other places.

Commissioner Wright said that the whole idea of calling this meeting was to go fully into these matters. He figured that millions were being spent on war business and it was up to this city to get its share.

INSPECTION

INSPECTION of the Gillette Safety Razor by mechanical experts and men of judgment shows clearly WHY seven million shavers prefer it.

The thin, flat blade is tempered to a uniform hardness impossible in an ordinary thick-backed razor. As a natural result, it takes an edge unequalled for even keenness.

The curved holder supports the blade close to the shaving edges, preventing all that vibration which makes hollow-ground open blades and other safeties pull and irritate when they strike a stiff beard.

Then there's the adjustable feature, exclusive to the Gillette.

By a simple turn of the wrist you can regulate a Gillette shave to a nicety—light, medium or as close as you like.

The toothed guard ensures safety, and permits such free and rapid strokes that a smooth, clean Gillette shave need take no more than three minutes.

Inspect the Gillette and you'll buy it—and shave in comfort thereafter. Go to it! Your Druggist, Jeweler or Hardware Dealer will gladly parade the Gillette Line before you.

"Bulldog", "Arctocrat" and Standard Sets, \$5.00—Pocket Editions, \$5.00 to \$6.00—Combination Sets, \$6.50 up.
