Russian Plans.

London, Nov. 4.—The Russians are concentrating a large army at Reni, in Bessarabia, with the object of making a direct landing in Bulgaria.

Reni is an important point on the River Danube on the Roumanian-Bessarabian border. The army will be transported up the Danube and will enter Bulgaria, through the narrowest part of Roumania, at Silistria.

LLOYD GEORGE'S CONSCRIPTION SECRETARIES

On right is Col. A. H. Lee, M. P., Lloyd George's private secretary who was once civil lord of the Admiralty. He was also British attache to the United States army in their war against Spain. Sir L. G. Money on the left is Lloyd George's parliamentary secretary. He was born in Genoa, and has been a financial journalist.

STEAMER MARIPOSA HAS BEEN REFOLOATED

(Special to The Daily News.)

Vancouver, Nov. 4.—The Alaskan steamer Mariposa, which went ashore near Bella Bella some time ago, was re-floated at high tide at 2 o'clock this morning and taken into old Bella Bella harbor for examination. It has been decided to tow her to McLaughlin Bay for repairs.

PATHE FEATURE AT THE MAJESTIC THEATRE

"The Silent Chord," the Pathe three-act drama showing at the Majestic, is a very interesting story of the re-union of a brother and sister, under extraordinary circumstances, after a lapse of years. The sister is the wife of a millionaire and the brother is a burglar and ex-convict. It is a play of strong human interest, powerfully told. The situations are intense, while the scenes are beautifully staged.

The Pathe Gazette is interesting as usual, and "His Fondlest Hopes" and "Safety First" provide the fun. The latter is an extremely amusing comedy of the whirlwind order, in which there are some novel aquatic stunts.

ROGERS AND THE PREMIER WILL TOUR THE WEST

Ottawa, Nov. 3.—Hon. Robert Rogers will leave for Winnipeg at the end of this week and will start a speaking tour throughout the west. The Prime Minister is preparing for a western visit at an early date.

THREE FIREMEN INJURED IN FIRE AT LOS ANGELES

(Special to The Daily News.)

Los Angeles, Nov. 4.—Fire last night destroyed half of the Douglas building here. Damage to the extent of \$200,000 was done before the flames were conquered. Three firemen were injured.

WILD LIFE FEATURES AT WESTHOLME THEATRE

The Westholme is displaying six reels of the very latest in animal photography. The hunting scenes are remarkable in that the animals are not shot, but captured alive in the most daring fashion. The photographer must have had a gun in one hand while he turned the crank with the other. One hunter climbs a tree and coolly pulls down a cougar by the tail, while another ropes a bear, after which bruin climbs a tree and tries to stay there.

The fishing and bird scenes are very interesting, the history of each type being traced from the egg stage up. The scenery depicted is full of wild beauty. This series of six reels is educative as well as being highly interesting and often exciting.

"Polly of the Pots and Pans," a real good comedy, completes a great seven-reel show.

At the Liberal meeting Friday H. L. Harris, of Bella Coola, will show how there are 400 days in the year at Bella Coola.

CHIEF ZIBASSA IS TEN DAYS OVERDUE

Fears are entertained for the safety of the Chief Zibassa, of the Canadian Fish and Cold Storage Company. She left port for the fishing banks 24 days ago, and had supplies on board for two weeks. WELL KNOWN EASTERN PACKER IS IN THE CITY

H. Gunn, of Toronto, of Gunns, Limited, packers, arrived from the east last night.

In speaking of the cattle trade of the west, Mr. Gunn said they were already receiving from the west a considerable number of cattle and hogs, but they could take all that could be sent forward.

The prices at the present time, he claimed, were quite normal, considering conditions, and he felt, after seeing the possibilities of the west as a cattle and stock-raising country, that in the near future there should be a much greater shipment of live stock from the west to the east.

The facilities for raising of live stock in the west were immense, and with the continued demand the farmers of the west should endeavor to prepare more animals for the market. There is at the present time a considerable demand from the old country, but this demand can only be cared for with the best class of stock. He did not see in the immediate future any prospect of high prices but at the prevailing market prices live stock could be profitably raised by the farmers of both the east and the west.

SEVENTEEN CARS OF FISH WENT EAST TODAY

This morning, a fish extra of twelve cars left for the east, while there were five cars on the passenger, which left later. Seventeen cars of fish shipped by one express company in one day constitutes a record for the Pacific coast, or anywhere else.

During the last three days over half a million pounds of halibut has been landed at Prince Rupert. The month of November has started out so promisingly in this line that it will not be surprising if Prince Rupert returns top those of Seattle.

All along the waterfront the greatest activity has been, and is still being, displayed. During the rough weather of the last few weeks catches were naturally small and, when the weather moderated and fares were more easily got, the schooners and steamers made for the nearest port, which is Prince Rupert.

Prices have been high and some of the boats must have made very satisfactory returns.

Seattle will, of course, get its share of the big catches. In fact there are three schooners with large fares on their way south now. The important point is that Prince Rupert has caught the eastern market first, after the spell of bad weather, and the probability is that, by the time the south-going boats reach Seattle, prices there may be lower than those obtaining in Prince Rupert during the past few days, so that the fishermen who sold here scored all along the line.
