### BRITAIN'S POLICY OUTLINED—THE BALKAN FENCERS RECEIVE FINAL WARNING

#### GREECE AND ROUMANIA MUST FIGHT FOR THEIR BRETHREN

HON. G. E. MASTERMAN OUTLINES BRITAIN'S POLICY OF SETTLEMENT AFTER THE WAR—GERMAN FLEET TO BE SUNK OR DIVIDED—GREECE AND ROUMANIA ARE WARNED

(Special to The Daily News.)

London, Nov. 16.—A semi-official statement of Britain's final intentions after the war is contained in an article in the Daily Chronicle by Hon. G. E. Masterman. The writer says that Belgium must receive complete independence with an indemnity sufficient to restore her ruined cities and industries.

France will get Alsace-Lorraine, which she lost in the Franco-Prussian war, and an indemnity for damage done by the enemy. The river Rhine will form a new natural boundary between France and Germany.

Denmark will get the province of Schleswig, which is purely Danish, but which was taken under the wing of Germany with scarcely a "by your leave."

Poland. German, Austrian and Russian Poland will be united into one

dominion under the Czar or a king appointed by him.

Italy. Italy will get the district of Trentino and Italian Irredenta, while the Turkish Empire will be dismembered. Serbia will be restored with Herzegovina and an indemnity received from Austria.

Germany. The German fleet is to be surrendered and sunk or divided among the Allies, while all Zeppelins will be destroyed. The German colonies will go to the nations who conquered them.

Greece and Roumania. The article ends by saying that if Greece and Roumania consider Greek Irredenta and Transylvania not worth fighting for, they will never receive them, as NATIONS WHO ARE UNFIT THROUGH COWARDICE TO RISK LIFE IN FIGHTING FOR ENSLAVED BRETHREN, ARE UNFIT TO RULE THEM.

SCENE OF ITALIAN OFFENSIVE

Map shows Carso Plateau and Isonzo river district, where the Italians recently administered fearful losses on the Austrians who threw their artillery into the ravines and ran. Especially heavy fighting took place near San Martino; many prisoners captured.

#### GREECE WILL ALLOW SERBS TO REACH SEA

Greece Yields to Pressure—Conflicting Reports From Serbia—Vesels Will Fall To The Allies.

(Special to The Daily News.)

London, Nov. 16.—As a result of pressure brought to bear upon the Greek government, it has modified its position in regard to Serbia. It now agrees that, in the event of a Serbian retreat to Greek soil, the Serbs will not be asked to disarm, but will be permitted to reach the coast without interference.

Monastir Threatened. Despatches from Macedonia are conflicting. It is stated that the Bulgarians have been reinforced and have begun a new offensive, making desperate efforts to force a way through the Katchnik Pass to Pristina and through the Babuna Pass to Perlepe. Both operations threaten Monastir.

Another Report. The Allies are still advancing in Serbia, and have cut off many Bulgarians from the main body. The French have made a terrific drive on Veles and its fall is only a matter of a few hours.

#### 50,000 HUNS WERE TAKEN BY RUSSIANS

Russians Took Many Guns and Men Last Month—Kitchener Arrives at Lemnos—Italy Protests to the States.

(Special to The Daily News.)

Petrograd, Nov. 16.—The official summary of the last month's operations on the eastern front shows 50,000 German prisoners taken, with 21 heavy guns, 118 machine guns and 3 searchlights. We are still advancing west of Riga.

Kitchener in Aegean. Milan, Nov. 16.—Lord Kitchener has arrived at Mudros on the island of Lemnos in the Aegean Sea, accompanied by the resident general in Egypt. The little town of Mudros is the British base for the Dardanelles operations and is the naval base from which the bombardment of the Bulgarian coast was conducted.

Air Raids. Rome, Nov. 16.—It is officially announced that two Austrian aeroplanes have bombarded Brescia killing seven persons and wounding ten. No material damage was done.

Thirty Killed. Milan, Nov. 16.—Austrian aeroplanes flying very low dropped five or six bombs on Verona, killing thirty people. The enemy aeroplanes flew off when attacked by Italian aeroplanes. The government buildings were not damaged.

Italy Protests. London, Nov. 16.—Italy has protested to the United States over the sinking of the Ancona.

#### LETTER RECEIVED FROM DON M'LEOD

Martin O'Reilly has received a most interesting letter from Don McLeod, who helped construct the city telephone system. Don left Prince Rupert before the war was dreamed of, intending to go to South America. He was heard from in San Francisco and New Orleans and then was lost track of.

This letter was written in the cellar of a convent in France, Don being a signaller with the British Expeditionary Force. He enquires for many of Prince Rupert's old timers and declares that if he gets through alive he will be here again. He had not encountered any of the Prince Rupert boys up to the time of writing.

#### O'LEARY OUTBOXED BY FREDDIE WELSH

(Special to The Daily News.)  
Winnipeg, Nov. 16.—Freddie Welsh completely outboxed Johnny O'Leary in nine out of twelve rounds here last night. The world's champion made O'Leary look like an amateur during most of the bout.

#### QUESTION OF LOCATING REGIMENT IN RUPERT

At the close of the council last night, the mayor asked what was to be done with regard to the locating of a regiment here. Col. Warden said that there was not room enough to train a regiment.

If the city guaranteed free light, phone, water and garbage collection and made provision for the billeting of the men, there was a possibility of one company being located here. He felt that the city should make an effort to have at least one company here and that the citizens might be prepared to make arrangements for billets.

Ald. Beveridge asked what other cities are doing.

The mayor said that the southern cities made all these concessions with regard to utilities and some provided free quarters.

Ald. Beveridge moved that free light, phone, water and garbage collection be granted.

Ald. Edge thought there were buildings vacant which might be used. He felt that an added payroll of \$15,000 per month for the winter would be worth having.

It was finally agreed to grant free utilities to the regiment or part of it, and that the finance committee report next week as to quarters for the men.

#### ACCIDENTAL DEATH

Jack Conway returned last night from Port Essington where he conducted the enquiry into the circumstances attending the death of Peter Henderson, who was burned in his shack. "Accidental death" was the verdict of the jury.

#### CITY OF SEATTLE IS ONLY SLIGHTLY DAMAGED

The Pacific Coast Steamship Company's steamer City of Seattle entered the drydock yesterday afternoon for temporary repairs, after which she will proceed to Seattle, where she will be thoroughly overhauled. Under the direction of J. H. Pillsbury, the ship was docked without a hitch, everything working like clockwork.

It was found that the vessel is very slightly damaged, thanks to the sound judgment displayed by her skipper, Captain McGillivray, at the time of the accident. For a distance of about 21 feet from the bow and below the ten foot mark her plates are badly dented. The steamer will be in the drydock for two days. The broken plates will be cut away and a sheathing of wood will be put on, with cement filling on the inside. The remainder of the freight, which is still on the government wharf, will be picked up by the Senator which leaves Seattle on November 23rd.

#### MR. AND MRS. C. A. COUTURE ARRIVED LAST NIGHT

C. A. Couture, who has been back east for a two months' vacation, returned on last night's train, and he did not return alone. On Nov. 6th at St. Marie, Beauce County, Quebec, Miss Alexandrine Geanest, of that town, became Mrs. Couture, and the happy couple left that night for Prince Rupert. They received a right warm welcome from the many friends of the bridegroom on their arrival here last night.

#### COUNCIL DISCUSSES HOSPITAL GRANT

At the city council last night, a motion was presented by Ald. Montgomery asking that the hospital board be requested to submit an estimate of their probable expenditure for 1916 with a view to having it placed before the electors at the January election.

Ald. Montgomery explained that his reason for bringing in the motion was that he felt, along with many other citizens, that the hospital board was getting too much money and that it was time the ratepayers had some voice in the matter. He suggested a plebiscite being taken at the next election as being the most economical way of getting an expression of public opinion.

Ald. Nicol said that such a proposal would place the board in an awkward position, as they could not give a reasonable estimate in advance. He also pointed out that the board was elected annually and that the present board would be asked to estimate what the next board would spend.

Ald. Beveridge, in seconding the motion, said that he felt that a \$10,000 grant to the hospital was too high. He felt that the people ought to know what they are paying for.

The city solicitor said that he could not say offhand whether such a plebiscite would be in order, but he thought that the municipal act did not provide for such a course of action.

Ald. Dybhavn said he could not grasp the force of the motion as the council had certain powers in such matters. The council has the power to refuse or make the grant as they see fit irrespective
