

VIOLENT ATTACKS OF DYSPEPSIA

Suffered Tortures Until She Tried "Fruit-a-tives"

St. JEAN DE MATHA, Jan. 27th, 1914.
 "After suffering for a long time with *Dyspepsia*, I have been made well by "Fruit-a-tives." I suffered so much that at last I would not dare to eat for I was afraid of dying. Five years ago, I received samples of "Fruit-a-tives" and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I eat, sleep and digest well—in a word, *I am fully recovered*, thanks to "Fruit-a-tives."

PACKING PRESENTS FOR OUR SOLDIERS

The public is urged to exercise every care in packing parcels for the troops, as careful packing is absolutely essential to ensure delivery of the parcels in good order.

Parcels sent abroad require a higher standard of packing than is necessary in the Canadian Parcel Post, and this applies with even greater force to parcels for the troops. Those which are inadequately packed run great risk of damage or loss of contents.

Thin cardboard boxes, such as shoe boxes, and thin wooden boxes should not be used, nor does a single sheet of ordinary brown paper afford sufficient protection.

The following forms of packing are recommended:

- (1) Strong double cardboard boxes, preferably those made of corrugated cardboard, and having lids which completely enclose the sides of the boxes.
- (2) Strong wooden boxes.
- (3) Several folds of stout packing paper.
- (4) Additional security is afforded by an outer covering of linen, calico or canvas, which should be securely sewn up.

The address of the parcel should be written in ink on the cover preferably in two places.

The address of the sender of parcel should also be stated in order that it may be returned if undeliverable. The contents of the parcel should be stated in writing on the cover.

In the case of parcels sent to the Mediterranean force, they should be very strongly packed. They should be as nearly round as possible, and well padded with shavings, crumpled paper, or a similar protective material. The outer covering should consist of strong linen, calico or canvas, and should be securely sewn up. The use of wooden or metal boxes with square corners is undesirable, as parcels so packed are liable to injure other parcels in transit. No perishable articles should be sent, and anything likely to become soft or sticky, such as chocolates, should be enclosed in tins. Parcels merely wrapped in paper or packed in thin cardboard boxes, such as shoe boxes, cannot be accepted.
