IN THE LETTER BOX

(Continued From Page One.)
my surprise that at the time of offering himself for re-election a majority of the then council had promised him if re-elected he would get the \$2,000, and that if he did not get this amount he would resign, and Ald. Edge's statement on that same occasion that our present mayor was the best man for the city for the money, or words to that effect, was rather amusing to me. A large majority of the council took the stand that they wanted the \$400.

I desire the ratepayers of this city to note, that these amounts of \$2,000 for the mayor and \$400 for the aldermen are the extreme limits allowed by the statute to be paid by cities with a population of 20,000 or less. With nothing to do but merely to hold the chairs down in order to comply with the requirements of the law, does it seem reasonable with a small population as we have now, that we should pay the same indemnity as a city of 20,000? This matter should receive the serious consideration of all ratepayers for this coming election. It looks very much as though a majority of the council is there chiefly for the \$400. If this be so, in my opinion we are on a wrong track. It is a wrong principle and one demanding serious consideration. Under present conditions I am sure we have in our city public spirited men who would consider it an honor to serve on the council for the best interests and welfare of our city—probably without any pay, or in any case at a rate reduced in proportion to existing conditions. In my opinion the present amounts should at least be cut in two, thus effecting a saving on this one item of about \$2,600.

Should not this question be one worthy of serious consideration by the ratepayers at this coming election? Would it not be well to have prospective candidates for our municipal honors express themselves on this point?

We should get public spirited men into office, men who would look more to the honor than to the indemnity, and serve the community regardless of the amount of the cheque.

**PRINCE RUPERT GETS
NEW JEWELRY FIRM**

After being in liquidation for about six months, the Wark Jewelry store has been taken over by Bulger & Denike, of Lacombe, Alberta, at a rate on the dollar. Besides their store at Lacombe, which is the finest in Central Alberta, this firm also controls the French & Thomas store in Wetaskawin, Alta., and it is the intention to do the buying for the three stores from Lacombe, thus ensuring closer prices and larger variety.

The stock at present on hand in Prince Rupert will be re-marked and new goods added, including medium and low priced goods from 25 cents up. Prince Rupert people will be able to buy their jewelry as low as in any of the other Canadian cities. The members of the firm have a wide experience of conditions in the different parts of Canada, Mr. Denike having formerly been with Birk's of Montreal and later with Dingwall's in Winnipeg, before starting in Lacombe nine years ago. Mr. Bulger first started in Seaforth, Ont., 16 years ago, coming to Vancouver seven years ago and finally selling out and moving to Lacombe about four years ago.

One of the main reasons for their success has been the strict quality of their goods, they often preferring to lose a sale rather than sell an article likely to be disappointing later. Mr. Bulger, who will have charge here, has given special study to the eye business the past few years and last summer took a post-graduate course with an eastern specialist to study new discoveries and the effect on the eye of modern conditions, such as light from Tungsten lamps, etc. These gentlemen are satisfied that Prince Rupert will soon start to grow, and they with it.

**A Suggestion for
Efficient Economy**

The saving will not be limited to money—the time you'll gain will be even more important, for the morning shave with the Gillette need not take more than five minutes.

And the comfort rivals the economy. Though you never shaved yourself before, you'll have no trouble in getting a clean, cool, safe shave with the Gillette Safety Razor. No more waiting your turn in the chair—no more breaks in the morning's work—no more dependence on unknown barbers when travelling, for the Gillette works anywhere.

Truly, the man with a Gillette is an efficient economist. Get one yourself to-day. "Bulldog", "Aristocrat" or Standard Sets cost \$5.—Pocket Editions \$5. to \$6.—Combination Sets \$6.50 up. Your Hardware Dealer or Jeweler will show you an assortment.
