#### MONTREAL LIBERALS CLAIM TRUCE VIOLATED

Reports in the Montreal press disclose the fact that the St. Louis (Liberal) Club, which for several weeks has been urging active organization for the next federal election, has been holding meetings at which a more belligerent stand than usual was taken in regard to federal politics.

The Conservatives were charged with violating the party political truce which was established shortly after the outbreak of the war, and which the Liberals had kept faithfully. It was pointed out that members of the government had been going about the country discussing matters of interest to their own party, and consequently the Liberals could not be blamed for discussing the failings of the party in power.

Matters were shaping for the return to power of Sir Wilfrid Laurier. "If reciprocity were up again before the electorate," said one speaker, "we would win on that question before all others. It is true that Sir Wilfrid Laurier lost on that question, but he was greater in defeat than were his opponents in victory."

Mr. S. W. Jacobs said that there was corruption in the provinces, wherever the Conservative party ruled.

Mr. Charles Query claimed that the supporters and members of the government had violated the truce agreement all along the line, and that during a short session \$150,000,000 would be voted on the pretext of carrying on the war, but it would actually be devoted to the promotion of scandals and the corruption of the electorate.
