

**2,000,000 Belgians Depend on us for Bread!**

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

## Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

## In the Letter Box

To the Editor:

Sir:—As many are inquiring about the Alberta Liquor Act in view of the coming plebiscite in this province, I should like to explain that this act does NOT prohibit the sale of liquor for medicinal, mechanical, scientific, and sacramental purposes, but allows government vendors, who receive a fixed salary with no profits or commissions to sell liquor for such purposes under definite restrictions, such as a doctor's prescription, nor does it prohibit an individual householder to have in his own house and for private use a limited amount of liquor, but it DOES prohibit within the province all sale of intoxicating liquors for beverage purposes, and so abolishes the bar-room and does away with the treating system.

The chief point of difference between the Alberta Liquor Act and the Saskatchewan Liquor Act is this: in Saskatchewan to bring about a great reform more gradually a certain number of dispensaries under strict government control are allowed to sell liquor as a beverage in the larger centres, but the people of these municipalities are given the local option to close these government dispensaries by vote, if they wish to do so. In several cases this has lately been done.

While there may be many of us in British Columbia who would prefer the Saskatchewan system as more moderate, in the plebiscite to be submitted to our people there should be no confusing of the main issue. Details should be left for future consideration.

No matter how great the personal sacrifice may be for the sake of the public good in these days of stress and strain, bearing in mind that: *Salus populi suprema lex*, let us rise up throughout this province in overwhelming numbers and "Banish the Bar."

Yours faithfully,

F. H. DU VERNET.

**NAVIGABLE WATERS' PROTECTION ACT.**

RICHARD B. MCGINNIS hereby gives notice that he has, under Section 7 of the said act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of Titles at Prince Rupert, B. C., a description of the site and of the plans for a wharf proposed to be built in Alice Arm, Observatory Inlet, British Columbia, at a point situated about 2-4 miles south of the southeast corner of Lot 1074, Range 5, Coast District, B. C.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, Richard B. McGinnis will under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans, and for leave to construct the said wharf.

DATED at Prince Rupert, B. C., this 22nd day of October, A. D. 1915.  
RICHARD B. MCGINNIS, Applicant.

## "THE PRIMA DONNA" AT THE MAJESTIC THEATRE

Tonight, the Majestic presents the world-famous star Asta Nielsen in "The Prima Donna," in three great acts. This is one of the most beautifully staged productions given to Majestic patrons for a long time, while the acting of Asta Nielsen alone will be well worth seeing.

There is also a splendid Pathe Gazette and two first-class comedies. "A Pippin" is a thousand feet of continuous laughter, while "Hot Stuff" is a rollicking comedy full of lively action.

There is a Broadway Star society feature for Friday and Saturday along with some good comedy.

## INSTALLATION OF WATER METERS IS APPROVED

The city council Monday night discussed the installation of 20 water meters as a test. The proposal was recommended by the board of works and finance committees. The reason for the suggestion is that the water department is having difficulty in collecting under the present system.

Ald. Majland said that the water returns were away below the estimate and that the meter system would act as a check.

Ald. Montgomery was opposed to the plan. There was plenty of water and he did not approve of the meter system. He suggested that the matter be left to the new council.

After a long argument, the motion to instal 20 meters carried. They will cost \$320.

## MARGUERITE CLARK AT WESTHOLME THEATRE

There is a movie treat at the Westholme tonight when Daniel Frohman presents Marguerite Clark in the great American comedy "Seven Sisters." As Mici, the fourth of seven Hungarian sisters, this dainty little actress scores her greatest screen success. The foundation of the story is an old Hungarian law which insists that the seven daughters be wedded according to their ages. A young lieutenant wants to marry Mici, but is in duty bound to find suitors for her elder sisters. The results are exceedingly amusing, and the climax is reached when the fickle Mici refuses to wed her lieutenant after he has invigiled three unsuspecting gentlemen into matrimonial tangles. This is a comedy which no one should miss. A Universal Gazette of war news completes a great program.

# - FACT HUNGER -

As children, our first demand is for nourishment; our second for facts.

All through life we go about searching for information.

We make a new acquaintance; but before we will accept him as a friend or invite him to our home we ask for facts about him.

We visit a foreign land; and from the moment we step across its border we are asking questions—searching for facts.

We are asked to try a new food product; isn't it instinctive with us to ask at once:

"Who makes this new article?"

"How is it made? what goes into it?"

"Is it worth the price charged for it?"

Facts—we are simply hungry for them.

Strange, isn't it, that we should so often have to search for them? Odd, that some manufacturers still withhold the facts about their product. Not always because they are facts to be ashamed of—for there are many worthy articles yet unadvertised.

But it will not be so much longer. The fact-hunger of the human race is becoming keener and keener. The more facts we get, the keener our relish for more of them.

Soon it will be impossible to sell a man or a woman anything until everything has been told about the goods that can be told through Advertising.

The public has discovered that Advertising tells much-needed facts—that, in fact, Advertising satisfies fact-hunger.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
