PROMISING PROSPECT ALONG LEGATE CREEK

Messrs. Whitmore and Orr have just had assays made on ore from their "Frisco" claim, which was located last July, and the result shows prospects of another high-grade property on Legate Creek. The "Frisco" is situated about half a mile from the group they bonded to Messrs. Price and Aitken last fall. The ore from this group assayed up to 40 per cent. copper, and showed total values of almost \$300 per ton. The "Frisco" shows outcroppings of bornite and chalcocite, in a line formation, running the full length of the claim.
In places 12 inches of clean bornite is to be seen in the hanging wall and the chalcocite shows from 4 to 6 feet on the foot wall. The quartz assays \$97.00 per ton, and the bornite \$314.93, the latter as follows:—Copper, 58.4 per cent.; silver, 83.3 per cent.; gold .06 per cent. The claim is about nine miles from the Skeena river, in a location which is well timbered and free from slides. A ferry will soon be constructed across the Skeena, and also a wagon road from Pacific up Legate Creek. These improvements will make this territory more accessible for prospecting and development.

ASQUITH BILL CALLS SINGLE MEN TO SERVE

Many Eligible Men Held Back Under Derby Scheme—Kitchener Addresses Upper House.

(Special to The Daily News.)

London, Jan. 6.—Premier Asquith, in introducing his compulsory military service bill last night, said that the measure was not an abandonment of the voluntary system but simply the carrying out of an honorable obligation to the married men who had enlisted under Lord Derby's scheme.

Under the terms of the bill, all males between the ages of 18 and 40, who are bachelors, or widowers without children dependent upon them, are liable for military service.
The premier emphasized the fact that, though 3,000,000 men had enlisted under Lord Derby's recruiting scheme, of whom probably 2,500,000 would be qualified for service, the government could not but consider the number of single men who had not enlisted as substantial.

Kitchener's Opinion.
Lord Kitchener, in addressing the House of Lords, said that compulsion only affected those who had a poor idea of their duty as citizens.

RENEWED ACTIVITY IN THE COPPER MARKET

Expectations of renewed activity in copper have been fully realized, an exceptionally heavy demand developing this week, both for foreign and domestic account. Great Britain alone is credited with having placed a contract for 150,000,000 pounds, while makers of munitions, as well as the brass and wire mills, have bought on an extensive scale. Under the stimulus of the unusually large requirements, prices have risen to the highest level since 1907, sellers holding electrolytic at 21c. for thirty days' delivery and sales on a cash basis being made at 20c. Similarly, there has been a sharp advance at London, electrolytic in that market on Thursday rising to \$510, while standard spot went above \$420. Exports from domestic ports thus far this month have exceeded 26,000 tons.—Duns Review.

DESPERATE MEASURE PROPOSED IN HUNGARY

Count Tisza, the Hungarian Premier, contemplates making the cultivation of wheat a State monopoly, according to The Post's Budapest correspondent, who declares that it is a desperate scheme, showing that national bankruptcy and ruin are not far distant. The correspondent says it seems incredible that the government should propose such a measure, and the mere fact of its being proposed proves the gravity of the present situation.

Referring to the idea in Parliament M. Szterenyi, a former minister, said to Count Tisza: "If the government proposed a monopoly on wheat it would be the most dastardly act ever committed by the government, and they would find millions of people involved in open revolution before the plan could be adopted."—Special to Toronto Globe.
