## GERMANY WAITS WILSON'S MOVE FOR PEACE

### STEAMER AMES CARRUTHERS HAS NARROW ESCAPE FROM DISASTER IN NORTH

#### CIVIL GERMANY IS READY FOR PEACE

(Courtesy Hotel Prince Rupert.)  
London, Jan. 28.—The civil powers in Germany are awaiting a lead in the peace movement and look to President Wilson for the initiative.

President Wilson declares that liberty and honor are more important than peace at the present time.

##### New Route Required.

A Canadian colonel, who has just returned from the front, says that the Allies will have to take a new route into Germany, as the German fortifications on the Rhine are too formidable.

Under present day conditions of warfare, the banks of the Rhine, which river divides France from Germany, can be made almost impregnable. Along most of its course on the boundary of the two countries the Rhine banks are very steep and form natural fortifications which, with up-to-date defence works thrown up behind will render them inaccessible to an attacking force.

##### Attack on Asia Minor.

The French have begun an attack on the coast of Asia Minor.

##### Fearful Loss of Steamer.

It is feared that a British steamer with 166 passengers on board has been lost at sea.

#### MAJOR HUNTINGTON RETURNS FROM INTERIOR

Major Huntington, of the 102nd Battalion, returned yesterday afternoon from a visit of inspection to Prince George. He states that Lieuts. Halsey and Stalker have about fifty recruits there and have them well quartered.

The major reports that the battalion is filling up quickly and that it will soon be up to full strength. Men are coming in to headquarters in Prince Rupert in gratifying numbers, there being now about seventy recruits, while there are many more to come in from the outlying districts.

Adversity is religion's greatest ally.

#### THE JAMES CARRUTHERS HAD ROUGH EXPERIENCE

The James Carruthers, Captain Knightall, arrived last night with 80,000 pounds of halibut for the Cold Storage Company, after a very stormy trip. Leaving here on January 2nd, the Carruthers made Cape Clear, 750 miles north, in good weather, and made her catch in ten days under ideal conditions for the time of year.

On January 18th with a north-west wind, she set out for Cape Spencer on the way home, in good weather. On the morning of the 19th, she had to be brought round to the sea with a very heavy sea running, and at mid-day a gale sprang up from the Nor' Nor'-East, coupled with fog and zero weather. The ship gathered ice rapidly and all hands were required to keep her clear. At 6 p.m. she lost her rudder and great difficulty was experienced in keeping her head to sea. For three days and nights all hands were busy keeping the ship clear of ice, which was rendered harder by the fact that four men were seriously injured on the 20th and had to be taken below.

On the 21st land was sighted and the captain made for Cape Fairweather, the ship meantime having developed such a dangerous list that he ordered the boats and all deck fittings to be jettisoned. They anchored under Fairweather glacier, having covered only a hundred miles in three days. The men worked all night clearing off ice and on the 22nd they started for Cape Spencer along the shore, during which part of the voyage the ship was again in danger of turning turtle, in Icy Straits.

In Dixon's Harbor, they spent two more days shedding ice, and on the 24th again set out for Cape Spencer and after getting through Inian Pass, they sighted the Andrew Kelly, which answered their distress signals. They made for Idaho Inlet followed by the Kelly. There they lashed together and transferred 20 tons of coal and some supplies to the Carruthers, the Kelly proceeding to Juneau to re-outfit. The Kelly had been six days in making Icy Straits from Rupert and was badly iced up. Last night, the Carruthers arrived home after a most adventurous passage.

#### FISHERMEN SWEEP OVERBOARD IN STORM

The New England, of the New England Fish Company, had a very rough experience on the fishing banks some days ago, losing five dories and having five men swept overboard. Fortunately the men were picked up again.

#### ICE HOCKEY HAZELTON VS. PRINCE RUPERT

At 3:30 This Afternoon.

AT THE SKATING RINK

—and on—

SAURDAY AT 3:30 p. m.

RED CROSS DAY ON GOLD COAST

That the most remote corners of the British Empire are with the Mother Country in the present crisis is indicated by the picture above, taken on a Red Cross day when funds were collected for the British Red Cross. One of the collectors is here seen with her guard of honor—two colored boy scouts.

#### FAREWELL ADDRESS PRESENTED H. P. WILSON

H. P. Wilson, who has been manager of the branch of the Royal Bank here ever since its inception, six years ago, was given a hearty farewell at the Prince Rupert Club last evening, an open night being declared in order to allow many friends who are not members of the club to be present.

A. T. Broderick, president of the club, acted as host, assisted by the other directors. The president, on behalf of the club and the friends present, made a presentation of an address to Mr. Wilson, and, in a happy speech, expressed regret at his leaving. He hoped that Mr. Wilson would take with him happy recollections of Prince Rupert and of his associates here, and wished him every success in his new field on the prairies.

Mr. Wilson, in responding, said that he had no doubts as to the future of Prince Rupert. He wished well for all those in the city, and hoped to see the place forge ahead.

A very pleasant evening was spent, with singing, etc., the party taking leave of Mr. Wilson with the singing of "Will Ye No Come Back Again," and "He's a Jolly Good Fellow."

On Wednesday evening, Mr. and Mrs. Wilson were entertained by the members of the Pioneer Club. They leave on Saturday morning for Moose Jaw.

#### CHEAP FUEL

Good wood cut to any length, \$5.00 cord. 2 feet—\$4.50, 4 feet—\$3.50. Also best lump coal. J30. PONY EXPRESS.

#### TELKWA MAY BECOME AN IMPORTANT CENTRE

Thomas Jefferson, who arrived from the south yesterday, accompanied by Mrs. Jefferson, left for Telkwa this morning. Mr. Jefferson, who has been interested in mining in the interior for the past five years, represents a New York syndicate which owns forty claims in the Telkwa mountains, which make up what is probably the most extensive low-grade copper property in the north.

Some years ago, the syndicate gained control of forty sections of coal lands in the vicinity of Telkwa which they tested thoroughly two years ago by diamond drill. It was reported at the time that the tests were highly satisfactory, but no further work was done.

The fact that the company is prepared to go ahead and develop their copper properties on a large scale tends to the belief that the coal is there. It is supposed that when the ore has been blocked out the company will erect a smelter, as the ore is of such low-grade that it will not stand the cost of shipping, and there is a big probability that in the near future Telkwa may become a second Granby. The syndicate has a large amount of capital at its command and the work will go on apace this summer if things pan out as expected.

#### PRINCE RUPERT BOYS WON HOCKEY GAME

The local hockey team managed to defeat the Hazelton boys last night on the Market Place rink by four goals to nothing. The weather was intensely cold, the wind cutting like a whip, therefore there was a rather meagre turnout of spectators. The ice was in good shape and the game proved the fastest of the season. The Rupert team showed a big improvement both in stick-handling and in team work. The Hazelton boys were without one or two of their regular players.

The game opened with a rush on Hazelton goal which was brought up by the speedy defence of the interior team. There was then a period of give and take play in which the local attack was bright and crisp, and the Hazelton defence robust and fast. There was a good deal of heavy body-checking, and one or two of the players were inclined to indulge in tripping. The Hazelton forwards did not combine so well as usual.

La Casse, as rover, was putting in good work for Prince Rupert, and it was from a pass from him to Scott that the first goal was scored. Shortly afterwards, La Casse found the net with a good shot, the first period ending 2-0 in favor of the home team.

The second period opened with the players checking very closely, with the result that there were some minor injuries, but nothing to delay the game until McDougall of Hazelton went down, striking his knee on the boards. He was compelled to retire for the rest of the game, Scott being retired from the home side to balance. After this accident, the judge of play became more watchful, and Blyth, of Prince Rupert, and Lavery, of Hazelton, decorated the fence. The play now improved all round, some of the players putting in splendid individual work, while the team work was very good. Two more goals were scored by the Rupert boys, Irwin getting one and Blyth the other.

The third period was fast and furious, the visitors doing their utmost to score, and many hard shots were turned aside by the goal-tenders. Brooks and Irwin, on the home defence, and McDougall and Warner, of the Hazelton forward line had many a glorious tussle. There was no more scoring and the Prince Rupert team ran out winners of a real good game by 4-0.

The line-up was: Hazelton—Donohue, goal; Lavery, point; Keddie, cover point; Warner, rover; Macdougall, centre; L. Macdougall, right wing; O'Brien, left wing.

Prince Rupert: Rogers, goal; Brooks, point; Irwin, cover point; La Casse, rover; Holtby, centre; Scott, right wing; C. Blyth, left wing. H. Love acted as referee, and F. Gilhuly as judge of play.

The second game will be played at 3:30 this afternoon, instead of in the evening.

Best quality of household lump and nut coal—Prince Rupert Coal Co. Phone 15.

#### ANNUAL MEETING OF THE PATRIOTIC SOCIETY

At the annual meeting of the Prince Rupert branch of the Patriotic Society last evening special mention was made of the work that has been done by the secretary, the Rev. W. E. Collison, and the treasurer, Mr. C. T. Heward. Since the work was inaugurated their duties have grown greatly until at present it takes a large portion of their time to keep everything in good shape. They have done the work in the most efficient manner and the society and the citizens generally owe a great deal to those two gentlemen, who by their self-sacrificing work are giving a larger contribution to the society than anyone else in the city. The vote of thanks that was given last night was carried by a standing vote.

Hearty votes of thanks were also tendered to the press and to those who aided in collecting.

The following office-bearers were appointed: President, S. M. Newton; vice-president, Mrs. R. L. McIntosh; treasurer, C. T. Heward; secretary, Rev. W. E. Collison; executive: Judge Young, J. H. Thompson, Canon Rix, George W. Morrow, Hal Peck, and Mrs. William Manson.

Owing to the inclemency of the weather, the attendance at the meeting was not large.

#### TURKISH SUBMARINE SUNK LINER PERSIA

London, Jan. 26.—An Amsterdam dispatch to the Exchange Telegraph says: "According to a Berlin report, the Turkish ministry of marine is about to publish a statement to the effect that a Turkish submarine sank the steamer Persia." This dispatch has not been confirmed from other sources.

The Persia was sunk off the Island of Crete, December 30th, with a loss of 119 passengers and twenty-one members of the crew. The vessel went down within five minutes after a terrific explosion forward. Nobody on board reported having seen a submarine.

#### WESTHOLME OPERA HOUSE

TONIGHT AND TOMORROW

"WHAT HAPPENED ON THE BARBUDA"

Pat O'Malley, the debonair daredevil and Gladys Huette, the dainty miss, in three adventurous acts.
