GERMAN HYDROPLANE RAID ON ENGLAND

ALLIES DESTROY SHEDS AT ZEEBRUGGE --- FRENCH ADVANCE IN THE BALKANS

SUNDAY SCHOOL CHILDREN HURT BY HUN RAIDERS

Canadian Hospital Damaged in Hydroplane Attack—Raider Brought Down—Allied Raid on Zeebrugge.

(Special to The Daily News.)

London, March 20.—Four German hydroplanes dropped forty-eight bombs on Dover yesterday, killing nine and injuring thirty-one. Several children were injured on their way to Sunday School.

A bomb was dropped on the Canadian hospital at Ramsgate, the building being damaged but no casualties resulting. Six bombs were dropped into the harbor from a height of six thousand feet.

Raider Brought Down.

The raiders were pursued by Allied airmen, and Flight Commander Bone, in a single-seater, after a thirty hours chase over the North Sea, in a fifteen minute fight, brought down one of the German planes, killing the crew.

Attack on Zeebrugge.

Early today an Allied fleet of sixty-five aeroplanes bombarded Zeebrugge, doing heavy damage to the Belgian port which is held by the Germans. Each aeroplane carried two hundred pounds of bombs and all returned safely from the raid.

The aeroplane sheds at Zeebrugge and Houtade were destroyed in the bombardment.

HAM AND BUD AT MAJESTIC THEATRE

There is a splendidly varied program at the Majestic tonight, the chief item of which is a two-act drama entitled "According to Their Lights." It is a story of a wild-cat mining deal and is full of excitement and thrill. "The Revolt of Mr. Wiggs" is a most amusing comedy, while there is also a Ham comedy entitled "The Merry Moving Men." Bud and Ham generally do a good deal of moving, no matter where they are. This is one of their best.

"Just a Lark" is a most pleasing little drama, which, with a Selig Tribune Weekly, showing the latest news from everywhere, completes a most interesting show.

WESTHOLME

Opera House
Rupert's Popular Play House

TONIGHT AND TOMORROW

Splendid 7-Reel Show at Popular Prices.

"THE DIAMOND FROM THE SKY"

Chapter 27th.

Drama, two acts.

Coming for Wednesday and Thursday, George Fawcett in "The Majesty of the Law" in five acts.

VANCOUVER JAPS RAID NEWSPAPER MAN

(Special to The Daily News.)

Vancouver, March 20.—A mob of a hundred Japanese attacked the residence of the Rev. Goro Kaburami, the editor of a Japanese newspaper, last night. They were angered because neither pay nor uniforms are yet forthcoming for the Japanese Battalion, which has been drilling for two months. The editor is accused of not airing the grievances of the Japanese recruits. A dozen Japs were arrested.

WILFRED MACDONALD WOUNDED AT YPRES

Reports from Ottawa indicate that several battalions of Canadians were engaged in the fighting on March 2nd along the Ypres-Comines Canal, when the British regained a half mile of trenches from the enemy.

The official list records nine Canadians killed, ten wounded, two seriously ill and two suffering from shell shock. An official notice from Ottawa has been received by Mrs. Macdonald of this city stating that her son, Wilfred C. Macdonald, who left here with the first contingent, has been wounded in this engagement. Wilfred Macdonald was amongst the first of the Canadians to enter the trenches and, up to March 2nd, had escaped without a scratch. It will be the earnest hope of all in the city that he will soon recover and be able to return to the trenches at an early date.

"DIAMOND" NIGHT AT THE WESTHOLME THEATRE

"Mine Own People" is tonight's installment of "The Diamond from the Sky," in which John Powell, Esther and the other folks in this great serial get another step forward in their exciting lives. "Sympathy Sal" is a very funny two-act comedy, and the "Riddle of Wooden Leg" is a two-act drama which is rather out of the usual.

One of the best features in a good show is the Gaumont Graphic which shows how big guns are made; views of the Belgian front; artillery regiments; scenes from the French front; rough riding by Canadian cavalry, and other most interesting items related to the war.

AFTER VILLA

Columbus, New Mexico, March 20.—The 24th and 25th Infantry, negro regiments, have crossed the boundary into Mexico today in pursuit of General Villa and his bandits.

Captain J. McGee, M. M. S. A.

AVIATION SCHOOL EQUIPMENT FOR B. C.

In order to obtain equipment for the aviation school at Vancouver a subscription fund has been started in the province and a branch list will shortly be opened here. As the government does not accept aviators until they have obtained their pilots certificates, the cost upon students taking the course comes high, and it is felt that, if equipment can be provided for the B. C. School by public subscription, it will aid in bringing along students.

The aviation branch is the most important in the service, but the war office does not see its way clear to put pupils through the school. Five machines are wanted for B. C. on which to train pilots and the cost, about \$20,000, must be provided by the students or by the public. As Prince Rupert will send several pupils to the school there should be a hearty response to the request for funds. This money is only to provide equipment, the pupils still paying their fees for the course.

DUTCH DEMAND EXPLANATION FROM GERMANY

Berlin Blames British for Torpedoing Tubantia—French Destroyer Submarine in the Adriatic.

(Special to The Daily News.)

The Hague, March 20.—The press of the Netherlands is discussing the possibility of war with Germany over the torpedoing of the Tubantia.

Berlin is asserting that the Dutch liner was sunk by a British submarine. The Dutch government has sent a strong protest to Germany.

The British Admiralty has denied that there is any possibility of the Tubantia having been sunk by a British submarine.

French Destroyer Sunk.

Vienna, March 20.—The French destroyer Renaudin has been sunk in the Adriatic by an Austrian submarine. Forty-seven of her crew were lost and thirty-six saved.

SHELL COMMITTEE INVESTIGATION REFUSED

Ottawa, March 18.—The expected has happened. That is, to say Premier Borden has refused a probe into the Shell Committee. His arguments were three. (1) That the old Shell Committee was so good that they had, at Messrs. Thomas' and Hicken's request, to get rid of it, (2) that it was so good that it couldn't stand an inquiry, (3) that this war is being settled in Europe and take shame of yourself for trying to start anything here.

Of course the Premier did not put his argument just that way, but that is what his statements amounted to in the long run. His speech was a notable example of great cry and little wool. From the truculence of his tone the House judged that he was going to snatch Sir Wilfrid baldheaded before he got through, instead of which he practically repeated Sir Sam's remarks of three weeks ago with a little peevishness of his own for good measure. His favorite form of challenging a leader of the Opposition was this: "When he talks about so-and-so I want to tell him, etc., etc."

There's urbanity for you! The fact of the matter is adversity does not sweeten Sir Robert. Moreover he has a weak case and he relies on indignation to pull him out. Not only does he put his foot down flat on an investigation, but he stamps on it.

Mr. J. W. Flavelle, chairman of the reorganized Imperial Munitions Board, was in the gallery during most of Premier Borden's remarks, and seemed much surprised at this display of temper. Mr. Flavelle, who has a smooth and pious disposition, would never let the sun go down on his wrath that way. He would consider it bad play. Mr. Flavelle does his important work for nothing and sheer love of country. All he gets out of it is a beef contract and the more or less distant prospect of a knighthood.

Sir Wilfrid addressed himself at some length to the point made by Arthur Meighen, namely that the money so lavishly distributed by the old Shell Committee to itself and its friends, was British money and that consequently the Canadian Parliament had nothing to do with it. One of the great differences between Abraham Lincoln and Arthur Meighen is that Abraham was a rail splitter and Arthur is a hair splitter. This last hair Arthur will have

offered in competition for school children. It will be awarded to the pupil whose exhibited work shows the greatest all round capability, due allowance being made for age.

The Indian classes have been added to, and over \$900 in cash prizes is being offered for competition amongst the native sons of Northern British Columbia. A large exhibit, and attendance of the Indian population is expected at the 1916 Fair which comes off in September next. The dates set for the same are the 20th, 21st, and 22nd of September.

FRENCH FORCE ADVANCING ON BALKAN FRONT

Three Enemy Positions Taken—Allied Military Conference in Paris—Russians Active in Bessarabia.

(Special to The Daily News.)

London, March 20.—A strong French column, supported by light artillery, has moved north from Saloniki and has attacked and occupied three villages which were occupied by the Teuton-Bulgarian forces. The French force is now thirty miles north of Saloniki.

Allied Conference.

Paris, March 20.—German attacks at Malancourt and at Cote-De-Poivre have failed and the enemy has sustained heavy losses. There is intermittent fighting at Vaux.

General Count Cadrona, of Italy, the Crown Prince of Serbia and Sir Douglas Haig have arrived at Paris for a military conference.

Russian Activity.

Vienna, March 20.—There is renewed Russian activity on the Bessarabian front where the Russian artillery has made a resumption of the offensive.

to split all over again because Sir Wilfrid proved to the satisfaction of all reasonable minds that the money spent by the old Shell Committee was just as much Canadian money as it was British, since Sir Thomas White had admitted that there would be an accounting after the war and that Canada would pay her share of the munitions purchased by the British government in Canada for the use of British and Canadian troops in Europe. Sir Wilfrid's logical mind put two and two together and since he did not make five of it a government which thinks that it is the part of all good citizens to suspend their intellectual faculties and shut their mouths while the British shillings roll gaily into the

BOXES FOR LADIES

The accompanying cut was designed by Mr. A. C. Garde, consulting mining engineer of Prince Rupert. Mr. Garde was awarded the prize offered in a recent competition for a design suitable for a permanent badge, by the Northern British Columbia Agricultural and Industrial Association. His design has been adopted by the Association as its permanent crest.

The badge is representative of the varied resources of Northern British Columbia, the furthering of the development of which is the reason for the Association being in existence. Mr. Garde has left nothing undone to make the badge distinctive, either as regards detail or workmanship, and is to be congratulated on its excellence. The central panel represents the head of a wild cattle from Graham Island, taken from a photo of one shot on the Islands some years ago by Mr. Garde. The Latin motto "Industry Conquers Everything" is an appropriate one.

The Association's affairs are in good shape, and already arrangements are well under way for the 1916 Fair. The prize list is in the hands of the printer and will be distributed the first week in

April, so as to be in time for spring seeding. The total amount of prize money, cups, medals, etc. amounts to nearly \$3,000. This is an increase over last year, and shows the importance of the yearly fair to the community.

Numerous changes have been made based on last year's experience, in the Prize List. In the mining class, the Directors recognizing the increasing importance of mining to the district, have added several new classes, notably a permanent trophy for the best district exhibit of ore, to be held by winners for one year and with which goes a gold medal and diploma. This trophy is made from Northern British Columbia products, and the design will be representative of the mining industry of the North. In addition medals and diplomas are being offered for best samples of ore from any shipping mines in the northern part of the province as well as cash prizes for prospectors' specimens. The fact that so many mines have reached the shipping stage during the past year and more are expecting to do so this year, has necessitated the inclusion of these extra classes.

A silver medal is also being
